cameras and professional photographers.

## FreeTail Compact Flash Memory Card 800x

Catered towards professional photographers, FreeTail's 800x Compact Flash Cards are built to support powerful DSLR processors and advanced technology. With Ultra DMA transfer mode 7 (UMDA 7), FreeTail Compact Flash Memory provides optimal interface speeds.

### Professional Performance

Up to 160 MB/s transfer speed which is best for rapid, continuous shooting and ideal for capturing those action shots with crisp clarity. It doesn't stop there! Increase post production efficiency with writing speeds up to 85 MB/s.

### Premium Video Quality

The FreeTail Compact Flash Card not only allows you to capture video in 1080p full HD, but in 3D and even 4K Ultra HD as well! Peace of mind knowing that you'll be able to capture those precious moments in sharp, stunning high definition quality.

\*\*General capacity approximations only. Actual results will vary based on megapixel count, compression, video frame rate & resolution settings, and content.\*\*

### Always assembled in North America

All of our compact flash memory cards are assembled here, locally in North America. We're confident that our compact flash card will exceed all of your needs, but if you find that you are not completely satisfied, reach out to us and we'll make it right. Your satisfaction is our top priority!
