Subject: Response to the official letter for U.S. TRADEMARK APPLICATION NO. 88014883 - EARTH ELEMENTS

Dear Ms. Brown,

We thank you for reviewing our currently filed trademark application for our Clothing brand "Earth Elements". After reviewing the details, and your recommended changes, we wish to make the following changes. The following changes are reflected in our official response as well.

With respect to the "Identification of Goods/Services", we wish to change it so that it requests a trademark on the brand name and logo only. We wish to exclude the wholesale services, and custom manufacturing from the "Identification of Goods/Services". Due to this, the application still belongs to one INTERNATIONAL CLASS 25. We have made the changes in "Identification of Goods/Services" for INTERNATIONAL CLASS 25 accordingly.

The fields are modified as followings.

DESCRIPTION OF THE MARK

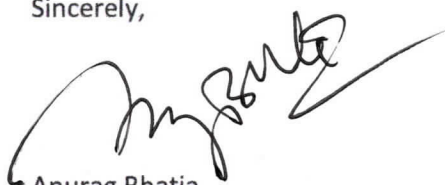

The mark consists of a sphere with rings and a shiny star within it to the left of the wording EARTH ELEMENTS.

IDENTIFICATION OF GOODS/SERVICES

We are the owner and seller of our Children's and infant's clothing line under brand name "Earth Elements".

Please review our response and grant the approval.

Sincerely,

Anurag Bhatia
Earth Elements
