

EXHIBIT 1

MUTUAL CONSENT AND CO-EXISTENCE AGREEMENT

THIS AGREEMENT, is made effective as of the date of last signature, by and between Neal Technologies, Inc., d/b/a Bullet Proof Diesel, an Arizona corporation, ("BPD"), with its principal offices in Mesa, AZ, on the one hand, and Hasport Performance, Inc., an Arizona corporation, ("HPI"), with its principal offices in Phoenix, AZ, on the other hand.

Whereas, BPD represents that BPD is an Arizona-based manufacturer and a nationally renowned seller of aftermarket diesel engine parts and related services, including upgraded oil coolers and EGR kits for Ford Power Stroke® diesel engines, known as "BulletProof" Oil Coolers and "BulletProof" EGR Coolers. In about 2009, BPD's founders invented an ingenious solution to the failing 6.0L Ford Power Stroke Diesel Engine. This solution, ultimately the subject of numerous U.S. Patents, included an improved EGR Cooler and an improved Oil Cooler System. BPD branded this specialized diesel engine aftermarket with its BulletProof Marks. This BPD fix for the Ford Power Stroke Diesel has become the "cure for the 6.0L cancer." Since at least as early as 2009, BPD has marketed such goods and services under the inherently distinctive common law BULLETPROOF, BULLET PROOF, BULLETPROOFDIESEL, and BULLET PROOF DIESEL trademarks. BPD has been using these word marks for at least nine years, resulting in BPD's common law priority ownership of these word marks. See www.bulletproofdiesel.com website.

Whereas, In addition, since at least as early as June 1, 2009, BPD has continuously used in commerce its family of "BULLET PROOF" U.S. registered trademarks, including BulletProofDiesel.com (U.S. Registration No. 4,235,578), BulletProofDiesel.com and Design mark (U.S. Registration 4,262,825), "BULLET PROOF" (U.S. Registration 5,130,772 and 5,220,129), "BULLET PROOF DIESEL" (U.S. Registration 5,220,128) and "BULLETPROOFDIESEL" (U.S. Registration No. 5,220,127). These registrations are valid and subsisting.

Whereas collectively, all of the aforementioned marks are referred to as "BPD's Marks."

Whereas, HPI represents that it has adopted and used the mark BULLETPROOF for "Molded polyurethane parts for engine mounts for land vehicles: Steering and suspension systems and parts for steering and suspension systems for vehicles, namely, upper ball joints, lower ball joints, ball joints with control arms, bushing kits, inner tie rods ends, outer tie rod ends, sleeves, idler arms, center links, stabilizer kits, inner sockets and pitman arms" in the International Class 12, since at least as early as January 17, 2018 and owns U.S. Registration No. 5573968 (HPI's 968 Registration).

Whereas, in addition to the above BPD's Marks, BPD owns US Trademark Application Serial No. 88041096 for the mark BULLETPROOF as used in connection with "Automotive components, namely, oil cooler and exhaust gas recirculation coolers for diesel engines; oil filtration systems comprised of filters for diesel engines; water pumps for diesel engines; and fuel injection control modules for diesel engines; thermostats for diesel engines; in International Class 7, since at least as early as July 16, 2018 and is sometimes referred to as BPD's '096 Application.

Whereas, BPD's '096 application has been refused registration based upon HPI's '968 Registration in accordance with Section 2(d) of the Trademark Act;

Whereas, the parties have now each reviewed the other's mark, the goods and/or services associated with each party's respective mark, the channels of trade and geographic scope of each party's respective mark, and the parties have arrived at an agreement with respect to the foregoing and wish to reduce the terms of that agreement to writing to avoid any conflict therewith;

Now therefore, in consideration of the mutual covenants and conditions set forth herein and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

II. AGREEMENT

Based on the representations and agreements set forth herein by BPD and HPI, each party believes there will be no likelihood of confusion or conflict caused by BPD's use of its BPD Marks and the registration of BPD's '096 application and by the use and registration of HPI's '968 Registration as herein agreed and that such agreed upon use and registration by the parties of their respective marks is consistent with the interests of the consuming public, is pursuant to the terms and conditions hereof and is in accord with the spirit of this Agreement.

1. BPD consents to HPI's continued use and registration of HPI's '968 Registration for "Molded polyurethane parts for engine mounts for land vehicles: Steering and suspension systems and parts for steering and suspension systems for vehicles, namely, upper ball joints, lower ball joints, ball joints with control arms, bushing kits, inner tie rods ends, outer tie rod ends, sleeves, idler arms, center links, stabilizer kits, inner sockets and pitman arms" in International Class 12. BPD will not petition to oppose, cancel, or take any other action that would challenge or adversely affect HPI's continued use or registration of the HPI's '968 Registration.
2. HPI consents to BPD's continued use and registration of BPD's Marks and will not petition to oppose, cancel, or take any other action that would challenge or adversely affect BPD's continued use or registration of its Marks or BPD's '096 application.
3. The parties recognize that during the prosecution of HPI's '968 Registration, no BPD mark was cited as a blocking registration. The parties recognize this is further evidence of no likelihood of confusion between BPD's Marks and its '096 application and HPI's '968 Registration as associated with their respective goods.
4. The parties agree that that limitations and conditions set forth in this Agreement are sufficient to avoid any likelihood of confusion arising from the use of the respective marks by the parties and that all parties are entitled to use their respective marks, prosecute their applications, and maintain their registrations in accordance with the terms of this Agreement.
5. In the event that a likelihood of confusion pertaining to the marks should arise in the future, whether due to a change of circumstances or for any reason whatsoever, the parties will contact each other and will cooperate and consult with one another, in good faith, and take whatever steps are reasonably necessary to eliminate any confusion in the marketplace and will take all steps reasonable necessary to avoid confusion in the future.
6. The parties acknowledge that they have the authority to enter into this Agreement and authorize the signatory hereto to execute this Agreement and bind said parties, and all successors-in-interest.
7. The parties also acknowledge that they have had the advice of independent counsel or the right to have the advice of independent counsel with respect to this Agreement.
8. This Agreement contains the complete understanding of the parties with respect to the subject matter hereof and supersedes all prior representations and understandings, whether oral or written.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed.
