This barely-legal specialty is the smoothest sippin' Unaged Corn Whiskey around. Black Button Moonshine Whiskey is traditionally made under the light of the moon, as this Corn Whiskey comes from an old family recipe. It's as smooth and easy drinking as any backwoods White Dog White Lightening to come down from the mountains in a Mason Jar.

Considered a premium sipping whiskey, this blend tastes just like an ear of corn-on-the-cob fresh from the field. It's great neat, on the rocks, or as a substitute for vodka in any of your favorite drinks. At 100 proof, it's sure to liven up your evening.
