How does Blink work?

Before you go to the pharmacy, prepay for your prescription medication through Blink. After you pay, present your Blink Voucher to the pharmacist along with your prescription.

What happens after I pay?

We provide you with a digital copy of your Blink Voucher. You can print it, email it or have an SMS sent to your phone. If you don't use it within 7 days, you will be automatically refunded.

How does this work with my insurance?

Blink is an alternative to your copay. If you have insurance, tell your pharmacist to process Blink instead.

BLINK IS ACCEPTED AT VIRTUALLY EVERY U.S. PHARMACY, INCLUDING
