PRODUCT DESCRIPTION

This heavy duty Snow Beast snow blower powered by a 302cc, 11 HP 120V electric start engine transforms banks of snow into a clear path in a single pass. The 16" solid steel impeller along with its powerful engine pulls in wet, slush snow and discharges it up to 50' away. Customers will appreciate the convenience of the 120V electric start, chute rotator, and 6 forward speeds. This is the best value in its class and is a must have for large driveways, clubs, ground keepers, and parks.

- 30 in. W clearing path
- 302cc engine combined with the 3 blade, 16 in. steel impeller can discharge up to 220% more snow reaching distances up to 50 ft. away
- All steel construction with a 24 in. intake height and 16 in. serrated augers break ice and even pull wet snow to the largest in class impeller to discharge
- Steel gearbox with 3 bearings (no aluminum, no bushings) provides greater durability: 170% stronger than cast iron, 230% stronger than aluminum
- Operator controlled chute
- All steel heavy duty construction; galvanized components and stainless steel hardware for corrosion resistance
- 6 in. Dia discharge chute
- 16 in. x 6.5 snow tires for greater traction
- 6 forward speeds and 2 reverse speeds
- Convenience of the control interlock so you can continue working while rotating the exhaust chute
