The World of Tulipop

Tulipop is a wondrous island in the middle of two seas, governed by three moons. It was created when a magical underwater volcano erupted many lifetimes ago, the lava formed the island that evolved into the beautiful place that is Tulipop.

Tulipop is full of waterfalls, rugged mountains, hot springs and golden sands and is the home of six very different but equally lovable characters: Gloomy, Bubble, Fred, Miss Maddy, Mr. Tree and Mama Skully.

Tulipop is a fun and exciting universe where nothing is what it seems. The characters may appear cute and adorable but they are all flawed in different ways and have real life problems. They are a nonsensical and a weird family.
