Our Products & Services

Quest Diagnostics is driven to discover and deliver diagnostic insights and innovations that help to improve human health. We offer a wide range of products and services that benefit patients, healthcare providers, and pharmaceutical medical device companies, life insurance companies and employers.

Diagnostic Testing Services

We are the world's leading provider of diagnostic testing, information and services that patients and doctors need to make better healthcare decisions. Our services range from routine blood tests — such as total cholesterol, Pap testing and white blood cell count — to complex, gene-based and molecular testing.

We perform medical tests that aid in the diagnosis or detection of diseases, measure the progress or recovery from a disease or confirm that an individual is free from disease. We have specialized expertise in cancer, cardiovascular diseases, infectious diseases, and neurology.

Clinical Trials Testing

Launched in 2015, Q2 Solutions is a leading global clinical trials laboratory services organization. We help biopharmaceutical, medical device and diagnostics customers improve human health through innovation that transforms science and data into actionable medical insights.

Q2 Solutions is a quality driven, responsive partner with strong global experience and deep scientific and medical expertise. The Q2 Solutions joint venture was formed by Quintiles and Quest Diagnostics, combining the best of each parent organization's clinical trials laboratory services capabilities.

To learn more about Q2 Solutions, please visit www.Q2LabSolutions.com.

Healthcare IT

Over 200,000 physicians use our Quantum™ suite of technology and analytics solutions to order lab tests, receive timely test results, share clinical information quickly and securely, and prescribe drugs. Currently used to process over one million transactions every day and capable of electronic interconnectivity, Quantum is a vital part of the national healthcare information infrastructure.

Wellness and Risk Management

We help employers and insurers improve the health of their workers and reduce illegal drug use in the workplace. In fact, we're a leading provider of programs to promote wellness and the prevention of disease. By conducting lab testing-based health assessments for common conditions such as diabetes and heart

disease, we enable people to better manage their health. We are the leading provider of risk assessment services to the life insurance industry.
