

Serial No.: 88/184,905

Mark:

Docket No. 191166.206

REMARKS

In the Office Action dated January 14, 2019 (the "Office Action"), the Examining Attorney raised two issues: (i) a description of mark amendment requirement; and (ii) an identification of goods amendment requirement. Each of these issues is addressed in turn below.

i. Description of Mark Amendment

The Examiner suggests the mark description be changed to read: "The mark consists of the design of a bird inside a shaded square." Applicant herein amends the mark description and color claim to read: "The mark consists of the design of a bird designated by the color white against a contrasting background designated by a black square. Color is not claimed in the mark." Applicant does not claim a color for the bird design, and uses the black square merely to designate background. The background can be any color and can have any shape.

ii. Identification of Goods Amendment

Examiner required amendments to the goods description. Applicant herein amends the goods description to provide additional clarification and further specificity.

Conclusion

Applicant respectfully submits that its application is now in condition for publication. If questions remain, the Examining Attorney is invited to contact Applicant's counsel, Kevin S. Costanza, by email at USTM.docketing@seedip.com or by telephone at 206-622-4900.
