Hey Matthew -

I am reaching out on behalf of the Social Responsibility team at Groupon as I am interested in providing a YAB installation to a Chicago Neighborhood. We've worked with you once in the past for the installation in Chinatown (the point of contact for Groupon was my colleague Bill Bustin):

This year, we've partnered with the organization LISC and are sponsoring their Business District Leadership program which brings together representatives from 20 Chicago neighborhood economic development organizations. In addition to grants we are already providing several of these participants, we also want to award a YAB installation to the neighborhood of the group's 'valedictorian'.

Would we be able to commission you for a YAB installation?  
What does a general timeline look like from initial contact to actual installation?  
How much would an installation cost? I believe the last one was around \$3,000 (as we commissioned 2 signs - English and Mandarin)

Thanks for your time and I look forward to hearing back from you.

Nick
