apparatus for scientific or laboratory use but not for the treatment of air or water; spark-guards, namely, Plastic guard for covering wall switches; coaxial cables; fiber optic cables; cables, electric; calipers; slide calipers; screw-tapping gauges; calculating machines; decompression chambers; electronic pens featuring visual display units; holders for electric coils; identity cards, magnetic; video game cartridges; toner cartridges, unfilled, for printers and photocopiers; encoded magnetic identity cards; riding helmets; protective helmets; carriers for dark plates used in photography; automated teller machines; cathodes; spools for photography; choking coils for use in electrical apparatus; coils, electric; electromagnetic coils; cinematographic film, exposed; solenoid valves being electromagnetic switches; wire connectors; encoded key cards; electronic book readers; electronic agendas; push buttons for electronic bells; magnetic encoders; anti-glare visors in the nature of sunglasses; electric collectors in the nature of capacitors; calibrating rings, namely, ring sizers; protective suits for aviators; commutators; comparators; marine compasses; computers; laptop computers; tablet computers; notebook computers; condensers being capacitors; contacts, electric; wind socks for indicating wind direction; safety traffic cones; branch boxes in the nature of electric junction boxes; distribution boxes for electricity; junction boxes for electricity; battery boxes; cabinets for loudspeakers; diving suits; galena crystals detectors for use in electronics; reflecting discs for personal wear, for the prevention of traffic accidents; covers for electric outlets; logs being measuring instruments, namely, electronic data logs; lasers, not for medical purposes; vacuum tubes for radios; thermionic tubes; amplifying tubes in the nature of stereo amplifiers; flashlights for use in photography; head cleaning tapes for video recording; magnetic tapes units for computers; videotapes recorded with animation, motion pictures; surveying chains; rulers being measuring instruments, namely, Folding rulers, Measuring rulers, Tape rulers; slide-rulers; contact lenses; correcting lenses being optics, namely, Eyeglass lenses; optical lenses; optical condensers; electricity conduits; measuring spoons; magnifying glasses being optics; thread counters; magnets; decorative magnets; close-up lenses; crash test dummies; resuscitation mannequins being teaching apparatus; computer mouse; divers' masks; solderers' helmets; protective masks; materials for electricity, namely, electric cables and wires; voting machines; money counting and sorting machines; material testing instruments and machines, namely, Metal hardness testing machines, Electronic apparatus for testing the curing and drying of elastomeric materials; furniture especially made for laboratories, namely, laboratory furniture; megaphones; portable media players; diaphragms for acoustics, namely, electroacoustic transducers; diaphragms for scientific apparatus, namely, Electroacoustic transducers; metal detectors for industrial or military purposes; metronomes; rules being measuring instruments, namely, Carpenters' rules, Circular slide rules, Measuring rules; carpenters' rules; dressmakers' tape measures; mechanisms for coin-operated apparatus; mechanisms for counter-operated coin-operated apparatus; coin-operated mechanisms for television sets; shutter releases for photography; micrometers; microprocessors; microscopes; microtomes; microphones; electric terminals, namely, Electronic payment terminal, Telephone terminals, Terminals for radiotelephones; junction sleeves for electric cables; teeth protectors in the nature of protective sports helmet accessories that attach to the helmets, namely, mouth guards; temperature indicator labels, not for medical purposes; knee-pads for workers; surveyors' levels; sound recording carriers in the nature of blank audio tapes; computer software for computer games, for use as a spreadsheet, word processing, database management, and as operating system utilities; sheaths for electric cables; identification sheaths for electric wires; weighing machines; punched card machines for offices; life saving apparatus and equipment, namely, Life saving rafts, Life-saving capsules for natural disasters, Emergency flares; shoes for protection against accidents, irradiation and fire; objectives being lenses optics in the nature of camera lenses; lenses for astrophotography; egg-candlers; fire extinguishers; electrified fences; electricity limiters; clothing for protection against accidents, irradiation and fire; garments for protection against fire; asbestos clothing for protection against fire; protective clothing especially made for laboratories; ozonisers being ozonators; octants; protective eyepieces; ohmmeters; wrist rests for use with computers; spectacle frames; eyeglass frames; oscillographs; plumb lines; mirrors being optics, namely, optical mirrors; spectacles being optics; sunglasses; goggles for use in sport; signalling panels, luminous or mechanical; radio pagers; pince-nez; electronic pocket translators; transmitters for telecommunication; transmitters of electronic signals; switches, electric; periscopes; gloves for divers; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; asbestos gloves for protection against accidents; furnaces for laboratory use; pipettes; pyrometers; planimeters; plane tables being surveying instruments; plates for batteries; wafers for integrated circuits; printed circuit boards; compact disc players; cassette players; blank magnetic sound recording strips; X-ray films, exposed; films, exposed, namely, Exposed camera film, Exposed photographic film, Exposed slide films; life-saving rafts; laboratory equipment being laboratory trays; semi-conductors; polarimeters; fire pumps; measuring glassware; life belts; fuses; circuit breakers; converters, electric; telerupters, namely, electrical switches; food analysis apparatus, namely, diagnostic apparatus for testing food; distance recording apparatus, namely, Distance measuring apparatus, Laser distance meters, Sensors for measuring distance not for medical use; distance measuring apparatus; speed measuring apparatus, namely, Speed indicators, Speedometers; apparatus for measuring the thickness of skins, namely, Ultrasonic thickness testers for non-medical use; speed checking apparatus for vehicles, namely, Speed indicators, Speedometers; teaching apparatus, namely, Artificial limbs for medical instruction purposes, manipulative blocks used as teaching aids for the visualization of math concepts, Electronic sports training simulators; time recording apparatus; hemline markers, namely, graduated rulers; apparatus and instruments for astronomy, namely, Telescopes, Antennas, Receivers for satellites; surveying apparatus and instruments, namely, Level measuring machines, Levelling rods, Magnetic compasses; weighing apparatus and instruments; nautical apparatus and instruments, namely, Marine compasses, Navigational buoys; navigational instruments, namely, Marine compasses, Navigational buoys; optical apparatus and instruments, namely, Optical data links, Optical receivers, Optical transmitters; apparatus and

instruments for physics, namely, Particle accelerators, Radiation gauges used for measuring the physical properties of materials; chemistry apparatus and instruments, namely, Scientific instrumentation for measuring concentrations of chemicals in water; measuring apparatus, namely, Tape measures, Angle gauges, Screw-thread measuring machines and instruments; electric measuring devices, namely, Electronic apparatus for electrophysiological measurement and testing of cells, Infrared detectors, Electronic spectrophotometer for use in identifying and measuring colors; boiler control instruments; meteorological instruments; naval signalling apparatus, namely, Emergency signal transmitters, Emergency warning lights, Marking and signalling buoys; observation instruments, namely, Observation rockets, Binoculars, Telescopes; navigation apparatus for vehicles on-board computers; satellite navigational apparatus, namely, a global positioning system; regulating apparatus, electric, namely, apparatus for regulating electric currents; precision measuring apparatus, namely, Precision balances, Precision instruments for manipulation and positioning of microscopic objects; prisms being optics; printers for use with computers; retorts for use in high temperature chemical reactions; Stands specially designed for holding retorts for use in high temperature chemical reactions; apparatus for changing record player needles, namely, tone arms for record players; drainers for use in photography; cleaning apparatus, namely, Cleaning discs for cleaning the lens of optical disc drives used in computers and digital video recorders; fire beaters, namely, Fire blankets, Fire extinguishers; sighting telescopes for firearms; test tubes; pressure indicator plugs for valves; magnetic wires; telegraph wires; telephone wires; wires, electric; conductors, electric; copper wire, insulated; fuse wire; computer programs, recorded for use as computer games, for use in database management, use as a spread sheet, word processing, and use as operating system utilities; computer game software; downloadable computer programs software for use as computer games, for use in database management, use as a spread sheet, word processing, and use as operating system utilities; computer operating programs, recorded; record players; central processing units; levelling rods for water diviners; electronic publications, downloadable, in the nature of books, articles, magazines in the field of electronics, appliance repair, business, ecommerce, cooking, household management, personal finance; electricity distribution consoles; radar apparatus; masts for wireless aerials; transmitting sets, namely, radio transmitters for telecommunication; radios; vehicle radios; sprinkler systems for fire protection; frames for photographic transparencies; screens for photoengraving, namely, Projection screens; walkie-talkies; voltage surge protectors; voltage regulators for vehicles; stage lighting regulators, namely, illumination regulators; light dimmers regulators, electric; speed regulators for record players; electrical switches, namely, cell switches; washing trays for photography; marking gauges for joinery purposes; time switches, automatic;
