Features

World Class Customer Service Is Just a Click Away

Bonfire features an extraordinary team of content writers, software developers, and search engine optimization specialists that makes our local internet marketing efforts consistently successful. This is backed up with an emphasis on providing world class customer service so that whatever your business needs might be, you can have confidence in the fact that they will be met quickly and effectively the first time around.

Take Your Business To the Next Level Today

When you partner with Bonfire, you're partnering with local internet marketing professionals that have a proven history of getting the job done for businesses of any size. If you're ready to get listed and get new customers, then you're ready to discover how Bonfire can help with your web design, local SEO, and PPC management needs.

How it works

Analyze

Bonfire will look for any current issues with your online presences through our advanced inspection tools.

Design

If you need a website, Bonfire has custom web design options that will meet almost any budget demands so that you can have better lead generation results.

Publish

Bonfire will publish your website to over 65 online directories so that you can be found quickly.

Performance

Bonfire will then stay on top of all search engine updates to ensure that your customers and prospects can always find you with a local search.

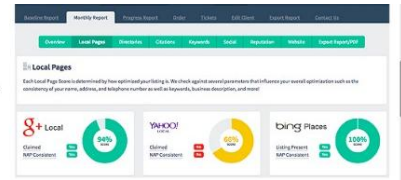

Dashboard

Our Exclusive Dashboard Software

OUR EXCLUSIVE DASHBOARD SOFTWARE

Bonfire utilizes proprietary software developed exclusively for our clients. This incredible online tool uses a dashboard to access all your most important listings and where you stand in real time. The information that we gather and provide our clients is essential in creating a successful business plan. Your sales representative will guide you through the steps of using this software enabling you to have a degree of control over your online presence and reputation. This software is exclusive to Bonfire and our clients, join our team today and take advantage of this incredible online tool!

See Where You Stand 24/7

Through your dashboard you can see exactly where you stand on your most important online listings. Each listing has detailed information that is displayed in an easy to see and understand format that enables you to take control of your own progress. Our options include packages operated by our clients directly or a complete service that Bonfire will work for you, each offering an effective platform for feedback and planning. Bringing each listing to 100% provides the optimum value for your online presence. The Bonfire Team are experts at using this information to provide the kind of success you are looking for from an internet marketing firm. Bonfire is exclusive to this method of bringing success to our clients. Contact one of our experts today!

Baseline Reports and Summaries

Your Baseline Report and Overview describe an overall evaluation of where you stand. Our software combines all the information about your online presence, from your website to online reviews, your listings and social media, to create a single number that gives you some relativity as to where you stand. The Bonfire Team guides you through your Dashboard and use this information to your full advantage. The Bonfire Team is here to bring you the knowledge and tools busy business people need to create to maximize their time and efforts on a daily basis. The information is updated instantly bringing you up to date statistics and information you can use to create the success you're looking for online.

Manage Your Online Reputation

Your online reputation is one of the most important aspects of your online presence. Over 75% of purchasing customers read and search for reviews of a business before engaging. Maintaining a 5 star reputation is the optimum way of insuring your potential customers see the best of you, your online dashboard is essential to providing the kind of control that most businesses only dream of. This powerful online tool is yours when you sign on with the Bonfire Team. We go the full distance and more for our clients, providing the newest methods and information so you can keep current with the constant changes that are made within search engines such as Google, Bing and Yahoo.

Site Name	Page Count	Last Crawled	Indexing

Website Optimization

Your website is the primary portal to the outside world containing all potential and existing customers. Having a fully optimized website is the key to achieving top ranking and response to your efforts on the web. Bonfire provides you with an exclusive tool to instantly evaluate your website and make recommendations for optimization. Optimization is what search engines like, optimization means making your website subscribe to the recommendations of Google Webmaster Guidelines to make you as search friendly as possible. The automated indexing of all websites is done by Google approximately every two weeks, so you get an exact evaluation of how your site is seen by Google when indexed, it allows for changes to the site that will bring you current with the highest standards of website production. The Bonfire Team is passionate about achieving top ranking for each and every client, we continue to develop new strategies and tools to keep you ahead of your competition.

Why Bonfire?

Because low budget websites have never been made with such a high quality.

Your website can be as small or as large as you need it to be. Bonfire will create a web design that will maximize your ROI.

An effective web design can provide you with multiple streams of revenue. Consider adding Google AdWords and other Google marketing or Yahoo search marketing techniques to create even more leads.

When all things are equal, the user experience of a website is one of the determining factors in gaining or losing a customer. Bonfire will maximize your UX with proven methods based on industry experience.

Bonfire will also maintain your website to continuously adapt to the changes that occur as search engines modify their requirements.
