BIG GAME SPECIES

Big game hunting and viewing opportunities in Nebraska are available for five species: white-tailed deer, mule deer, pronghorn, elk and bighorn sheep. Both species of deer provide annual hunting opportunities for most residents and nonresidents who wish to hunt. Pronghorn and elk populations in the northwest offer more limited, but consistent hunting opportunities. Bighorn sheep offer great viewing opportunities, and in some years, limited hunting.

National Hunting and Fishing Day

September 27, 2019

Tomorrow, September 29, is National Hunting and Fishing Day.

Governor Ricketts signed a proclamation this week recognizing that here in Nebraska. I have always thought that a national [...]

Thoughts on Waterfowl

September 25, 2019

It's just my humble opinion, but I believe those of us involved in fish and wildlife conservation on a

professional level are
"wired" a bit differently
than the [...]

Breakfast in the Blind

September 25, 2019

When you've been up
and dragging decoys
since 4 a.m., you're
ready for some grub by
the time the ducks have
flown and the
midmorning lull begins.
Whether [...]
