## DETAILS

We take our Obsession seriously. So should you. The All-New 2019 HB33 Huntress is built on a platform with the female archer in mind. The narrow-throated grip, the forgiving brace-height and smooth draw-cycle makes the HB33 Huntress ready to take on the challenge. Our HB33 Huntress' rotating mod system offers a wide-range of adjustability while it's compact, light-weight design makes this bow ready to climb high and be the tool you need to fill tags this season.

Use	Hunting

### HYBRID RZ CAM

The Hybrid RZ Cam features an inter-rotating module so you can make alterations without the use of a bow press. The Hybrid RZ Cam aims to please, featuring adjustability, smoothness, and speed all packaged into one cam.

[Contact us](#)

## HYBRID SD CAM

The Hybrid SD Cam is the smoothest, deadeest in the hand and most tunable cam you will ever shoot. Others talk about bows that are smooth, but Obsession Bows deliver smooth with speed.

Contact us

### AXION LIMB DAMPENER

If you thought Obsession Bows were already quiet, we've made them even quieter by pairing up with the Axion Limb Dampener system that promotes unparalleled noise and vibration control, resulting in a more accurate, quiet shot.

### TORQUELESS ANGLED CABLE ROD

Not only does the Anti-Torque Cable Rod increase speed, but makes for a smoother draw cycle. The Torqueless Angled Cable Rod reduces cam lean and torque for a smoother draw shot after shot.

### REAR STABILIZER MOUNT

With our already quiet and dead-in-the-hand feel, Obsession has included an all-new rear stabilizer mount on all new models with the XP Riser Design. This convenient mounting location allows the archer to easily use a rear stabilizer.

## TORQUELESS CUSTOM GRIPS

Whether on the range or in the field, Obsessions Bows come outfitted with TorqueLess Custom Grips to perform under any circumstance. TorqueLess Grips are professionally designed to deliver accuracy through consistent and proper hand alignment.

Contact us

## FX LIMB POCKET

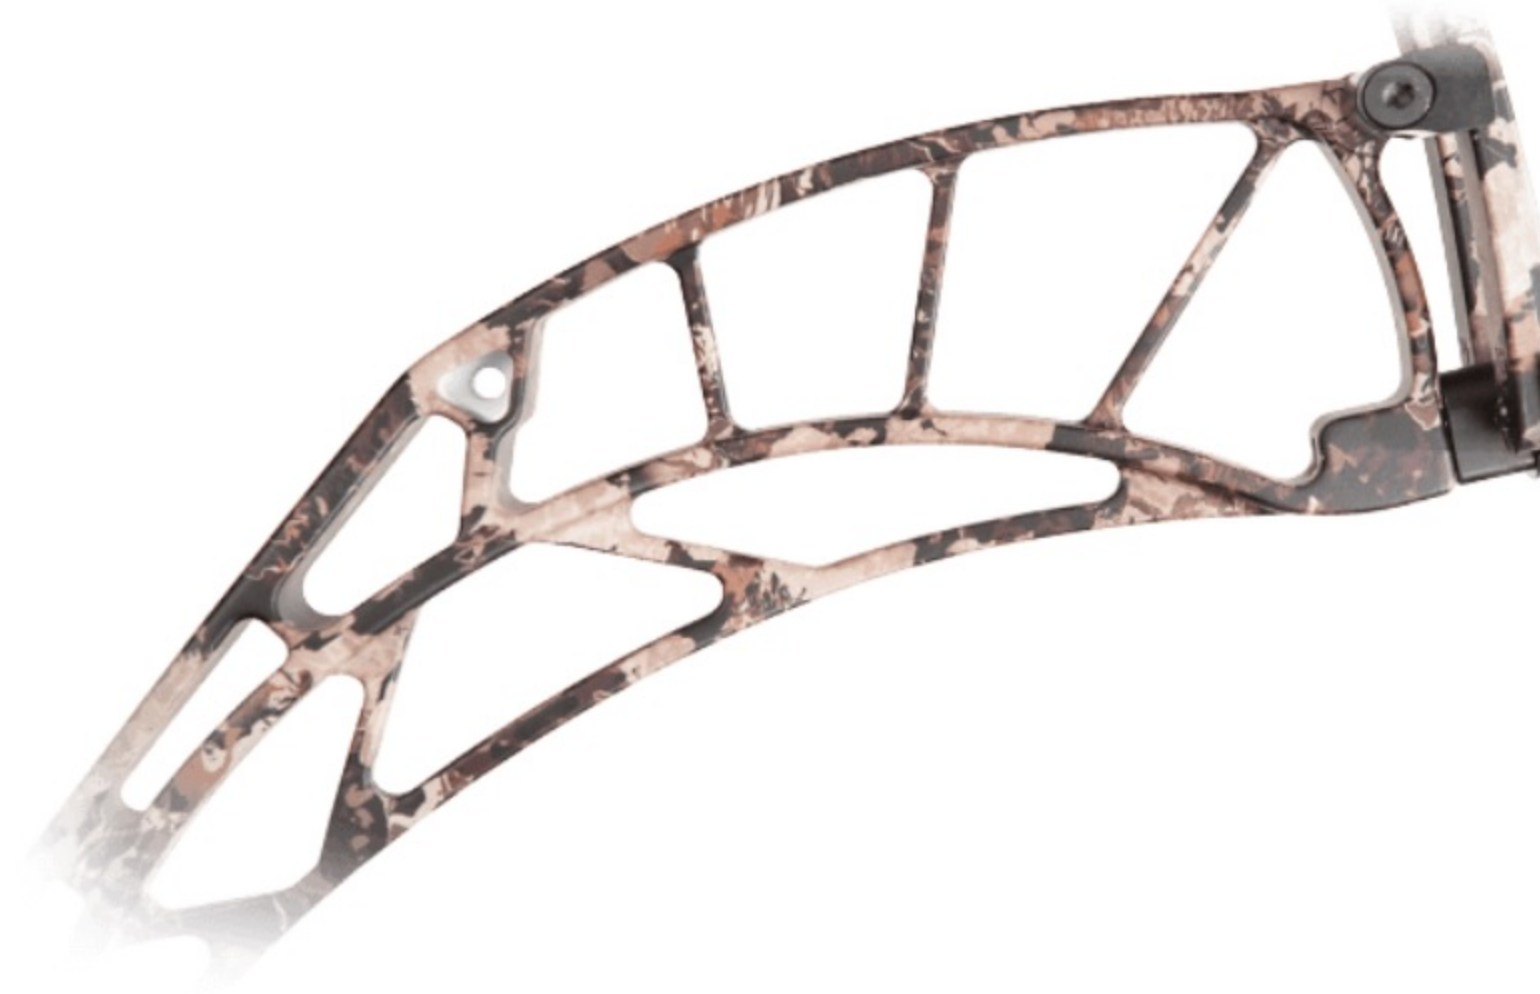

Extra-Performance Bows require Extra-Performance limb pockets. Our all-new FX Limb Pocket, is a 3-piece, lightweight rigid design creating precise alignment from the riser to the limbs, reducing cam lean and eliminating limb torque throughout the draw.

## AMERICA'S BEST BOW STRINGS

Custom bows deserve custom strings. Obsession Bows come outfitted with America's Best Bow Strings for superior quality and unparalleled performance. Completing your setup with America's Best Bow Strings will give you a competitive edge this season whether you're in the field or on top of the podium.

## FX RISER DESIGN

Our signature FX Riser design is the pinnacle of performance and accuracy. The stiff riser design reduces flex while adding superior stability during your draw cycle.

Contact us

## ADJUSTABLE STRING SUPPRESSOR ROD

Obsession Bow's All-New Adjustable String Suppressor Rod is the most alterable string stop that minimizes vibration, provides a more consistent arrow exit and offers plenty of character found common in Obsession Bows.
