## Waste Services

Since its inception in 1994, EMCO's Waste Services Division has provided innovative, cost effective sustainability solutions for our clients non-hazardous industrial waste needs. Our goal is to eliminate landfilling and find value in non-hazardous industrial waste streams through:

- Thermal destruction
- Waste to fuel programs
- Recycling

In addition to sustainability services, we provide waste disposal services:

- We accept containerized non-hazardous industrial waste.
- We perform site clean ups and disposal.

Contact us to discuss waste disposal and sustainability solutions for your business.
