

SAFE System™

Signal Alert For Education

WHY USE SCHOOL SAFETY?

SAFE (Signal Alert For Education) System™ is an alert and notification solution that connects teachers and classrooms to first responders for quick response and communication. The integration of SAFE System with the Teacher Microphone gives teachers a personal duress button, providing the ability to send alerts instantly, from anywhere in the school. Office staff are able to discreetly acknowledge the alert, letting teachers know that help is on the way. The web-based interface gives administrators the ability to provide direction and maintain situational awareness of the entire campus, even in the most challenging emergency conditions. When seconds count, SAFE System is there to help!

SAFE CLASSROOM SYSTEM

Compatible with

SAFE (Signal Alert For Education) System™ is a crucial tool that provides a timely response for incidents that happen in and outside the classroom. The **SAFE Classroom System** empowers teachers to focus on their teaching, knowing that help is a simple button press away.

Classroom Audio

VIEWpath

EPIC System

Alert Station

MS-1000 MONITORING STATION

The MS-1000 receives alert signals from all classrooms on the network. Multiple MS-1000s can be placed at key staff and administration locations. It operates independent of servers and can be placed on a desk or mounted to the wall. A username and password prevents unauthorized changes to network settings. The system has a protected activation protocol — information it needs to authenticate before it will set off the alert.

FULL SPECS

Alert Button

ALERT NOTIFICATION BUTTON

This optional Alert Notification Button can be strategically installed in various locations (i.e. entrances, cafeterias, front offices, hallways, board rooms etc.), pressing the button sends a message through the network interface or a network camera to the front office console, identifying the location and time.
