DermaLevin®

Waterproof Adhesive Foam Island Dressing

DermaLevin is a moderately absorbent waterproof foam dressing. Maintains a moist wound environment. Will not adhere to wound bed. Waterproof backing. Conforms easily to awkward-to-dress areas. Protects and cushions the wound.

[Print Friendly](#)

BENEFITS:

- Supports moist wound healing and autolytic debridement
- Excellent exudate management to minimize maceration
- Supports normalization of wound bed temperature
- Conformable for hard to dress areas
- Latex free

INDICATIONS:

May be used for the management of acute or chronic partial and full thickness wounds/ulcers with moderate exudate.

AVAILABLE SIZES:

Size	Reorder #	Packaging

The DermaRite Value: More Than Skin Deep

Our goal at DermaRite® is to provide exceptional service to our clients – so you can do the same for yours. We provide a comprehensive range of tools and services that, along with our cost-effective pricing, make us the smart choice for your skin and wound care needs. No other company offers a greater value – for you, your staff, and your residents – than DermaRite®.

Contact your local representative, call or email us to find out how you can take advantage of DermaRite's exceptional offerings.

Clinical Services

DermaRite Clinical Services offers an unparalleled level of personalized attention to assist caregivers and help them get the most out of their skin and wound care products. Continuing education ensures that staff is up to date on best practices and ready to provide exceptional care.

How you benefit:

- Improved product utilization
- Simple, consistent education for staff
- Improved resident outcomes
- Compliance to formulary

Services include:

- Post-Acute Care Focused Education
 - Accredited CE Provider
