About Power

Transmission Solutions

News and Events

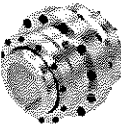

Bearings

Our brands include McGill®, SealMaster®, System Plast®, Rollway® and Browning® bearings. These premier brands offer bearing solutions in Unmounted and Mounted bearing styles.

Conveyor Technology

System Plast is a world leading supplier of quality conveyor products including chains, belts, sprockets, ValuGuide™ components, Nolu™ guide rails & wear strips.

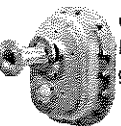

Couplings

Our Kop-Flex®, Jaure®, Morse® and Browning® brand couplings all offer coupling products that are sure to meet and exceed your expectations.

Drive Components

Power Transmission Solutions is an industry leading producer of mechanical power transmission drives, components and bearings.

Gearing

Power Transmission Solutions™ offers a tradition of leadership in custom and off-the-shelf gearing. This includes gear type selection and design modification.

Lifecycle Services

Power Transmission Solutions' Engineers have the knowledge and experience to support your company's mechanical power transmission needs.

Agents are available with no wait time.
