Youth Programs - Driving The Passion For Classics

Hagerty is dedicated to helping ensure the future of the classic car hobby by Driving the Passion for Classics and providing young people unique access to classic car-related experiences through various youth services with our Youth Advocacy Program.

Since 2007, nearly 10,000 people age 25 and under have participated in the Hagerty Youth Advocacy Program to gain insider access to the classic car and boat hobby. Hagerty provides these youth services as a way of 'giving back' to the classic car industry to support and encourage the next generation of car enthusiasts and collectors.

Youth Judging

Introduced as our first official youth service in 2007, the Youth Judging Program is hosted at more than 100 classic car and boat events throughout the U.S., Canada and the U.K. Designed primarily for youth ages 8 to 14, the Youth Judging Program brings the world of classics to a kid friendly level. The Young Judges are guided through the show field as a group to pre-selected show cars and interact with owners, allowing the judges to learn details, history and fun facts about each. A simplified score card that highlights five basic categories and is rated on a scale of 1-to-5 is used. For more information or to request a Youth Judging Kit for your show, contact youthjudging@hagerty.com or 231-922-8841.

Hagerty Driving Experience

Introduced in 2011, more than 1,000 young drivers have been introduced to the excitement of driving classic cars while teaching the basics of driving a manual. The Hagerty Driving Experience is designed to teach young drivers, ages 15 to 25 how to operate a manual transmission – all while behind the wheel of exciting classic cars. Some of the classic cars that have been available to drive include a 1928 Packard phaeton, 1930 Ford Model A, 1955 Porsche Continental, 1963 Corvette split-window coupe and many others! The program has gained national attention and support from many car clubs and groups, including Ford Motor Company. If you're interested in taking part in this exciting program as an instructor or participant, please visit www.hagerty.com/drivingexperience to find out where the next programs will be hosted or contact us at youthprograms@hagerty.com.

Hagerty Test Garage

The Hagerty Test Garage presents young adults, ages 12-18, to a variety of automotive skills through a fun, hands-on experience that also introduces them to the importance and career opportunities in that trade. Automotive design, pin striping, and documentary photography were the workshop stations during the program lunch which took place at the Buick Club of America's 50th Anniversary Celebration in 2016. Each station is led by a subject matter expert who introduces the skill and provides the participants with insight and guidance through demonstration. Design legend, Ed Welburn (retired Vice President of GM Global Design), led the automotive design station during the first Hagerty Test Garage and inspired nearly 30 young people in the process. For more information, please visit www.hagerty.com/testgarage to find out where the next program will be hosted or contact us at youthprograms@hagerty.com.

Past Initiatives

Hagerty Valve Cover Races

Hagerty is off to the races! Valve Cover Races, that is. Similar to pinewood derby racing, this form of racing involves assembling a rolling racer using an engine's valve cover as a starting point. From there, gravity takes over as two of the homebuilt racers speed down a specially designed sloping track.

Scale Model Building Contest

The Scale Model Building Contest partnered youth ages 8 to 12 with supporting car clubs to build a scale model car. Each participating car club hosted several participants, helping them build the model and using the time to teach them about cars. Once models were complete the club voted on the best, which was then submitted to Hagerty as a finalist. The top five submitted models were selected and the builders and a guardian received an all-expense-paid trip to Monterey Classic Car Week for final judging by a panel of VIP judges. The hosting car clubs of the finalists also received \$500.

Youth Reporter Contest

The classic car world is full of interesting cars and people that want to share their story. This led us to create the Youth Reporter Contest in 2011. Participants from across the U.S. and Canada submitted a video of themselves reporting on a classic car-related topic and the winner was selected by public online vote. The prize? All-expense-paid trips to three major collector car events, including Monterey Classic Car Week and a special trip to Los Angeles to interview Jay Leno and tour his Big Dog Garage!

Young Designers Contest

Hagerty's Young Designers Contest was introduced in 2010 for young people passionate about automotive design and provided them the opportunity to showcase their skills. Designers ages 13-17 years old, were asked to submit original renderings of what they thought their favorite classic car would look like if designed 50 years down the road in 2060. The top five finalists were selected through online voting and were awarded an all-expense-paid trip with one guardian to Monterey, Calif., during the Monterey Classic Car Week for final judging by a panel of VIP judges including host of Chasing Classic Cars Wayne Carini, Stewart Reed of the Art Center College for Design and former GM Chief Designer Tom Gale.
