TRAINING

We encourage you to simply call, or you can view our website, read some of our nationally published K9 articles, view some K9 training videos, and if possible, visit our facility. Ultimately, visiting our facility is always best, so we can meet you and hear what you are looking for, understand your overall expectations, and show you several dogs and their capabilities in person (to either choose from or get an idea of what you would like us to find for you). If you cannot visit our facility to view our dogs and what we do, we can provide you with a menu of current dogs with their bio and trained capabilities. Once you agree on a dog, we will send you an agreement that requires 50% down and the remainder 50% upon delivery. You can either come to our facility for a three-day orientation and training or we can deliver the dog to your location and conduct a three- day orientation and training there. Payment can be by wire, cash, check, or credit card.
