

Applicant hereby respectfully responds to the Office Action mailed on November 19, 2019.

IDENTIFICATION OF GOODS

The Office requires that the goods in class 10 be further defined. Applicant has amended the identification of the goods, as recommended by the Office. These amendments are set forth below:

- Class 10 – **Medical ultrasound apparatus;** ~~Ultrasound and/or combined therapy equipment with neuromuscular electric stimulation, **namely, electrical stimulation apparatus for nerves and muscles for rehabilitative purposes** through currents, with the following characteristics: ultrasound in frequencies in the range from 0.5MHz to 10 MHz with continuous and pulsed emission, medium frequency current, low frequency current, high frequency current, TENS and FES current, interferential current, high voltage current, sinusoidal current from 1 KHz to 4 KHz (2 milliseconds to 4 milliseconds), Galvanic and Diadynamic current, Microcurrent, combined therapy with laser or vacuum, used in dermatofunctional and rehabilitation areas, esthetic medicine and odontology; electromedical equipment designed for laser therapy, **namely, laser therapy stimulators and laser acupuncture equipment;** and laser acupuncture in wavelengths of 904nm, 830nm and 660nm, physiotherapy devices for pain and functional stimulation, **namely, nerve stimulator apparatus, physical exercise apparatus for medical purposes;** therapeutic devices, **namely, stretching machines for therapeutic purposes;** **medical ultrasound apparatus** with vacuum therapy, short wave and/or microwave therapeutic diathermy **equipment,** electric instruments for acupuncture, **aesthetic** esthetic massage devices, portable high frequency devices for facial, hair and podology applications, **namely, high frequency electromagnetic therapy apparatus; apparatus for oxygen therapy; apparatus for fungicide and bactericide therapy; apparatus for radio and magnet therapy** devices with oxygenation, fungicide and bactericide action, radio frequency and magnetotherapy equipment.~~

MEANING

Applicant submits that the wording in the mark “IBRAMED” has no significance in the ultrasound and medical device trade or industry, or as applied to the class 10 goods, nor is this word a “term of art” within Applicant’s industry.

DESCRIPTION OF THE MARK

Applicant has amended the description of the mark to recite:

The mark consists of a design of a curved “I” shape with three curved lines in a half circle side by side of the “I” shape.

Applicant respectfully requests that the present application be approved for publication.
