

AMENDMENT

Please amend the identification/recitation and classification of goods/services as follows:

International Class 009: Downloadable mobile application software for providing communication in hospitals and other clinical environment, including for providing secure text messaging.

International Class 041: Educational services, namely, conducting interactive workshops in the field of best business practices in the healthcare industry, including hospitals, clinics, and other institutional environments

International Class 044: Consulting services, namely, providing advice relating to best business practices in the healthcare industry, including hospitals, clinics, and other institutional environments

REMARKS

The Applicant has accepted the Examiner's proposed identification for International Class 009.

The identification for International Class 044 has been amended to adopt more definite terminology.

An identification for an additional class, International Class 041, has been added as suggested.

The filing fee due for the additional class is submitted herewith.
