★★★★★ **Wish I had bought this long ago.**

December 14, 2019

Size Name: 24inch | [Verified Purchase](#)

I went ahead and purchased a 36"x48" piece of plywood, drilled this brackets to it and put it on my wall. I now have the most convenient worktable for my art I've ever owned, it even doubles as my new computer table.

I would say so far I've put about 200 pounds on it and it holds it up pretty sturdily, I'll push the weight up slowly but I don't doubt I can out last 3x that amount on it.

Best part yet is when I need more space, I put my supplies in storage and collapse the table out of the way. My only regret was not buying this before, instead of putting up regular shelves.

It only take two days shipping to my home, and i started to install it, very easy and simple, just need the measure tape and screwdriver, take 5 minutes total, thick material make it super strong and durable, one easy grid handle to fold it down, very good buy for garage storage or any other rooms

★★★★★ **strong and easy to set up**

December 4, 2019

These braces are strong and versatile. They are easy to mount, and they come with long and short screws. I'm using it with a 3 foot shelf, and it is solid. The collapsible function may be useful, but I don't see it coming down any time soon. They are really sturdy -- I think they could probably hold 50 pounds.

★★★★★ **Easy install and cool collapsable feature. Super Sturdy.**

December 17, 2019

Size Name: 12inch | [Verified Purchase](#)

Just installed a smaller (18") workbench shelf with this and it's awesome. The collapsable feature is nice and seems super sturdy. I just lined up the brackets with the studs and screwed down the butcherblock top. Says it'll hold 88lbs so it's plenty of support.

I have a small area next to my wash/drier and I wanted to put in shelves for cleaning/laundry supplies. The folding shelves work perfect. They are strong and hold everything I need them to, but easily collapse down for easy access.
