CASE STUDY: WESTGATE LAS VEGAS

Providing a safer environment for your staff & guests.

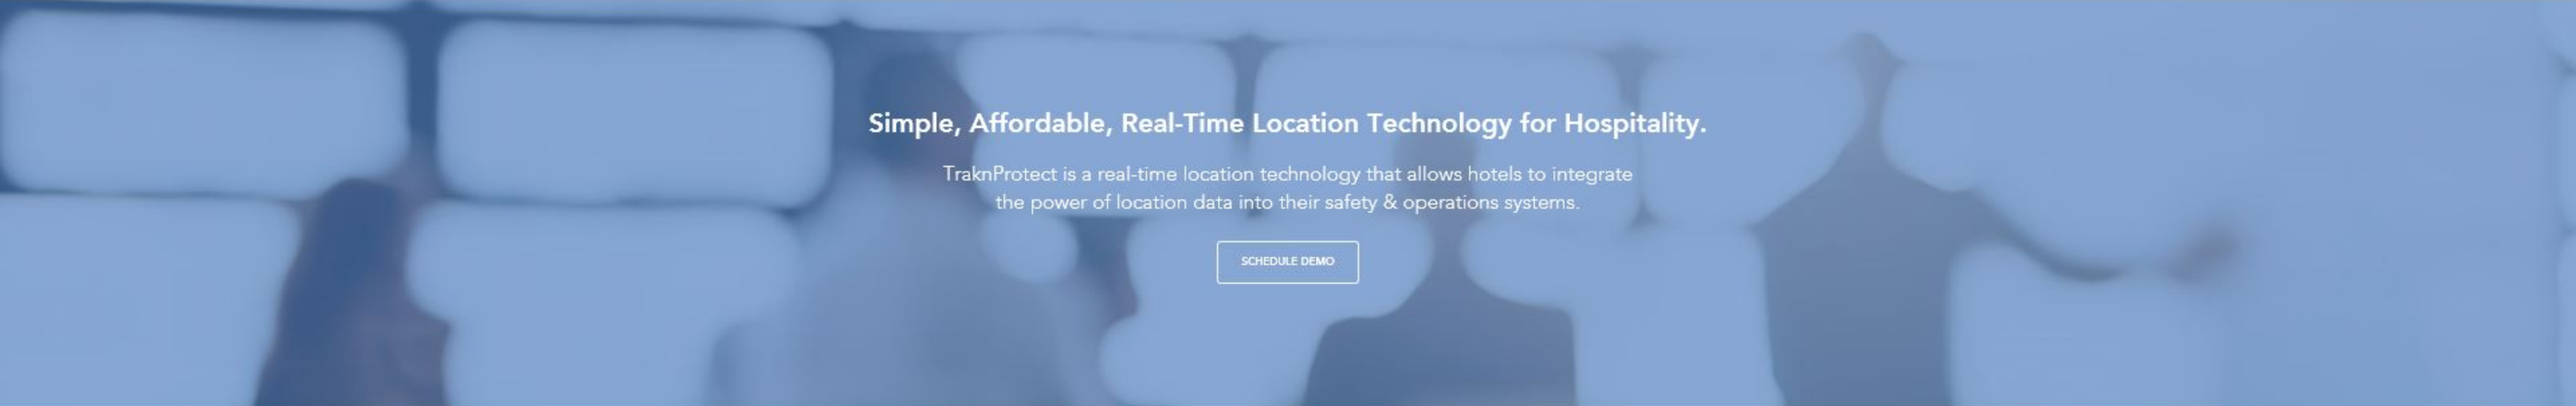

OVERVIEW

Westgate Las Vegas is a fun-filled vibrant resort-casino located just a few blocks from the Las Vegas Strip. With 2,954 guest rooms, there is never a dull moment making customer service essential to guest satisfaction. In using TraknProtect's Westgate Las Vegas is the first hotel to integrate TraknProtect's easy-to-use tracking technology with HotSOS to create a seamless solution: TraknProtect trackers are attached to inventory items such as rollaway beds, luggage carts etc. Hubs were placed in storage areas on every floor. When a request is received via HotSOS work-order TraknProtect provides location of item closest to request TraknProtect App updates the inventory count and location of available items in real-time.

DETAILS

Client	Westgate Las Vegas
Date	2018
