PRODUCT INSTRUCTIONS

ABOUT CONTENTS VIDEOS INFORMATION

Description

The Static King makes it easy to model realistic antler velvet and plant life for taxidermy mounts, habitats or other displays. It has an ergonomic design and can be placed upside down for easy filling. Use different Sieve sizes to create a varied effect with multiple lengths of fiber. A divider allows the use of multiple colors and sizes at the same time when modeling.

Use a Power Supply to operate the Static King at full strength or power with batteries. *Power Supply and batteries not included.*
