Choosing the Right Digital Printing Paper for the Job

Digital printing offers many benefits, but the results depend on using the right digital printing paper for your project and equipment. Consider these six tips for choosing your next digital printing paper.

[Read more →](#)

Electronic Imaging Guarantee

Domtar's Digital Products are guaranteed to run on digital production presses, laser and inkjet printers, copiers and plain paper fax machines within the limitations specified by the equipment manufacturer. The guarantee excludes issues related to form design, converting, post-processing or equipment. Selection, handling and conditioning of digital papers consistent with equipment manufacturing recommendations is the responsibility of the end user. Domtar encourages testing of digital papers prior to purchase of large quantities. Samples are available upon request.

The Right Paper for Every Print Job

Variety. Selection. Options. Choices. Call it what you will — it all comes down to things that matter. And when you want to send a message — the right message — there's no room for compromise.

When only the best will do, trust Domtar's Commercial Printing Papers to yield superior results for maximum impact. Our established Cougar®, Lynx® Opaque Ultra and Husky® Opaque Offset brands are long-trusted by generations of creatives and commercial printers to deliver unmatched performance, consistent quality and outstanding printability time and time again. With options for every project, priority and budget, our papers set the standard for excellence and dependability.

Rest assured, no matter which Domtar product you choose, you're making the right call — for your customer, your client, your message, your brand and your story.

Making the Case for Domestic Paper

Domestic paper, imported paper — it's all the same, right? Actually, it's not. Your decision to buy domestic matters to our economy and our communities. Here are four reasons why you should purchase Domtar's North American-made paper instead of imported paper.

CONTINUOUS FORMS

Boxed Forms

Domtar stocks over 100 different standard boxed forms papers – everything from green bar to four-ply colored carbonless paper.

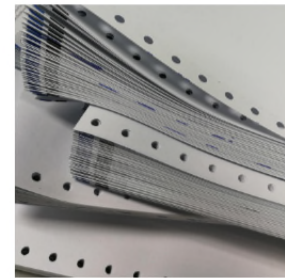

We produce over 500 different types of continuous forms for almost every end-use. Our forms are designed to run smoothly and perform well on all types of equipment because we work closely with leading original equipment manufacturers (OEMs).

Processed Rolls

We manufacture quality, reliable rolls that are available in popular widths, core sizes and packaging options. Our rolls are ideal for use in a wide variety of equipment ranging from digital inkjet to commercial to consumer applications.

See [Inkjet Converting Papers](#) and [Laser Forms Bond](#) for substrate information.
