Introducing BALANCED LifeTH Budgeting Simulations

Cornerstone Credit Union Foundation and **BALANCE** are committed to offering hands-on learning programs that build financial capability, providing a solid foundation for financial well being in adulthood.

In adolescent and young adulthood, structured experiential learning activities that incorporate real-life financial decisions are the strongest platform for developing financial capability. (CFPB) 99

The **BALANCED Life** program is designed to be a highly effective tool for teaching personal finance concepts and will transform teens' working knowledge of money. Offered as two options–*A Reality Fair* and *A Classroom Simulation*–this program incorporates all of the keys to a successful simulator experience:

- Ready to use immediately
- Realistic Scenarios
- Clear instructions for the facilitator
- Thorough debrief with students

Combining the reality fair and classroom simulations in one program offers the flexibility and scalability of a turnkey solution, allowing you to more quickly go to market and begin serving your community in a way that meets their needs and yours.

Make an impact in your community

By gifting or partnering with a school to offer **BALANCED LIFE**, you are exemplifying one of the most important principles of a highly effective, purpose-driven CU: the provision of education, training and information to young people.

No fuss, no muss interactive group simulations

Both versions of **BALANCED Life** budgeting simulations deliver:

- Fun and interactive methods of learning on an experiential level about budgeting and adulting.
- Learning objectives that meet the National Financial Literacy Standards regarding budgeting.
- A boost to your credit union brand among members of your community, specifically Gen Z.
- Shared experiences using partners to instill compromise and emulate real world scenarios.
