BALANCEDLIFE™

a budgeting simulation

Financial empowerment is critical to our communities' stability, and credit unions are poised to do their part to develop more capable and competent citizens. To adequately prepare our youth for adulthood, credit unions must empower them with the tools, information, and decision-making skills necessary to achieve financial freedom.

Cornerstone Credit Union Foundation and BALANCE are offering two personal finance simulations designed to help students strive to create a BALANCED Life. The program is made up of:

1. A Reality Fair; and
2. A Classroom Simulation.

Having these available options allows you to serve your community and meet their needs at an affordable price. With BALANCED Life, you get **two** options with **one** shared goal of offering practical and powerful ways to help today's youth learn the importance of managing a household budget for long-term financial success.
