

TEAZZERS®

— SMART BREW —

The Teazzers SmartBrew Machine was designed as a convenient, compact tea brewing machine. And with options to mix and dispense a variety of beverages and/or sweeteners, it's also the most refreshingly versatile machine for your business and customers.

Features include:

A Sleek Design

Three-position urn for customizable merchandising opportunities plus easy access to electronics, valves, plumbing, etc. all contained within. Patented pinch-tube design eliminates the need for urn liners.

Large Brewing Capacity

Each urn holds three gallons but are short enough to fit in commercial dishwashers and three-position sinks.

Smart Capabilities for Category Management

Remote management to monitor the machine, ability to communicate information about each brewing event to a cloud database, 8" touch screen display for easy user interface and advertising, filter tracking, recipe management and freshness tracking for quality control of each urn.

Less Waiting

With a convergence zone where tea, sweetener and make-up water meet, you and your customers don't have to wait for tea to finish brewing before you drink.

BIB Storage

Designed within the base of the machine, the BIB compartment for sweetener eliminates complexities typically associated with BIBs.

Check with a Teazzers sales rep today to see if you qualify for Teazzers SmartBrew placement.

Experts in brewing innovation – and equipment, too.

So we don't brew it like grandma does. Our tea recipes are created with commercial brewing equipment in mind. Our TEAZZERS SmartBrew™ system is our brewer of choice when creating crave-able brews and managing your beverage category better. The patented, state-of-the-art, wifi-enabled TEAZZERS SmartBrew takes the guess work out of brew volumes and time and helps you more effectively manage your category. It may be our brewing system of choice, but if we're being honest, our tea tastes great no matter what system you use and we offer a variety of equipment options depending on your specific needs.

Our TEAZZERS SmartBrew™ system is our brewer of choice when creating crave-able brews and managing your beverage category better.

Brewing Solutions Specifically for Your Business

In addition to our proprietary TEAZZERS SmartBrew, we sell and support a variety of commercial tea brewers and dispensers, including Bunn, Curtis, Lancer, Crathco, & Omega.

Consult with our tea experts to determine the best equipment solution for your needs.

Contact Us

You're gonna love our tea. And the profits.

Whether you're serving our tea or distributing it, we want to partner with you to create a delicious experience for your customers and your business.
