

M MARWIN (Serial No. 88501222)

Applicant responds to the examining attorney's requests for information and documentation with the following written responses and the accompanying evidence:

(1) Identify the particular good(s) listed in the application for which the specimen(s) was submitted to show use of the mark.

T-shirts and Polo shirts

(2) Was the specimen created for submission with this application? If so, specify the date each specimen was created. If applicant obtained the image(s) of the goods shown in the specimen(s) from a third-party website, provide the URL of the website and a digital copy of relevant webpage(s) for each image.

No, the specimens were not created for submission with the application.

(3) Provide information about and examples of how applicant's goods appear in the actual sales environment.

(a) If sold in stores, provide a representative sample of the name(s) of the stores and of photographs showing the goods for sale in the named stores, such as photographs of the sales displays or goods on shelves with the mark. Applicant's goods are sold in a U.S.-based store called Advanced Apparel Technologies, whose abbreviated name is Marwin USA. The goods with the mark are displayed and available for sale on shelves and on racks in said store, as shown in photographs annexed hereto.

(4) If the information in question (3) about how the goods appear in the actual sales environment is not available to applicant, please describe how applicant's goods are sold or transported and provide photographs and other documentation showing how applicant's mark appears on the goods and/or its packaging when the goods are sold or transported to or within the United States.

Not applicable.

(5) For each category of sales environment specified in response to questions (3) and (4), specify when the goods bearing the mark were first available for purchase within the United States, the date of the first sale of the goods to or within the United States, and whether the goods are still for sale to or within the United States in that environment.

Applicant's goods were for the first purchased and exported to the United States market on March 19, 2019. The goods are still available for sale to and within the United States in the same environment specified in response to questions (3). The goods bearing the mark were first available for retail purchase within the United States on June 18, 2019.

(6) For the goods identified in response to question (1), specify the dollar amount of sales with or within the United States and provide at least three invoices or other supporting documentation that show payments or other consideration made, redacting personal or private information of buyers as necessary.

For the goods identified in response to question (1), the amount of sales with and within the United States is approximately \$120,000.00. This is applicant's best estimate of its sales of the one branded garment it submitted as its original specimen of use. Applicant's goods are sold as a set, based on a general purchase order, not garment by garment.
