

## Exhibit A

The screenshot shows the Dictionary.com website. At the top, there is a blue header with the Dictionary.com logo and a search bar containing the word "downhole". Below the header, there are navigation tabs for "TOP DEFINITIONS", "QUIZZES", "EXPLORE DICTIONARY", and "BRITISH". The main content area displays the word "downhole" in a large, bold font, followed by its phonetic transcription "[ doun-hohl ]" and a "SHOW IPA" button with a speaker icon. Below this, the word is categorized as a "noun" and an "adjective". Under "noun", there is one definition: "1 a hole dug or drilled downward, as in a mine or a petroleum or gas well." Under "adjective", there is one definition: "2 occurring or situated in such a hole."

The screenshot shows the Merriam-Webster website. At the top, there is a dark blue header with the Merriam-Webster logo and the text "SINCE 1828". To the right of the logo are navigation links for "GAMES", "BROWSE THESAURUS", "WORD OF THE DAY", and "WORDS AT PLAY". Below the header, there is a search bar containing the word "downhole". Below the search bar, there are two tabs: "DICTIONARY" and "THESAURUS". The main content area displays the word "downhole" in a large, bold font, followed by the word "adjective" in a smaller font. Below this, there is a "Save Word" button with a bookmark icon. Underneath, the section is titled "Definition of downhole" and contains the text: ": of, relating to, or used in a hole in the earth and especially in a borehole".

## ABOUT US

Since 1969, Cougar Drilling Solutions has been designing, manufacturing and delivering downhole drilling tools, services and solutions to oil companies around the world. We have decades of experience in the direct management of complex drilling projects, from exploration to development drilling in oil, gas and geothermal.

Time and time again, we continue to deliver innovative solutions both onshore and off, proving our reliability throughout North America, South America, Europe, Australia, Asia, Africa and the Middle East. We're constantly improving our existing, in-house-manufactured, Canadian-made products and developing new ones to meet the ever-evolving demands of the drilling industry.

## Exhibit C

The screenshot shows the Wikipedia article for "Diamond blade". On the left is the Wikipedia logo and navigation menu. The main content area has tabs for "Article" and "Talk", and "Read" and "Edit" buttons. The article text describes a diamond blade as a saw blade with diamonds fixed on its edge, used for cutting hard or abrasive materials like stone, concrete, asphalt, bricks, coal balls, glass, and ceramics in the construction industry; semiconductor materials in the IT industry; and gemstones in the gem industry.
