

OMURA

**PRECISION & PURITY™**

## A NEW PLATFORM AND DELIVERY SYSTEM FOR VAPORIZING WHOLE FLOWER.

Our engineers and designers obsessed over each and every detail of our breakthrough system to create the ultimate tool to unlock the full potential of cannabis. Engineered to celebrate the whole flower, it's about taking purity and precision to the next level by combining the convenience of vape pens with the whole flower experience. Our next-gen 'Heat-Not-Burn' technology allows for a cleaner, healthier, and more discreet alternative to smoking flower.

## WHOLE FLOWER PURISTS UNLOCKING THE PLANT'S FULL POTENTIAL.

Omura maintains the integrity of the natural cannabinoids and terpenes found in the cannabis plant. We believe in consuming pure and premium whole flower and only partner with the best growers to fill our cartridges to ensure you have a better, more holistic, compromise-free experience.

The biodegradable and compostable flower cartridges pair exclusively with the Omura vaporizer and come pre-filled with 0.125 grams of flower per cartridge, delivering approximately 10-12 doses to be enjoyed over a 3-minute session.

## PIONEERING THE EVOLUTION OF CANNABIS. DESIGNED WITH OPTIMAL CARE.

System Design: A beautifully clean, convenient and precise experience

Precise Heat Curve: Get all cannabinoids and terpenes in their purest form

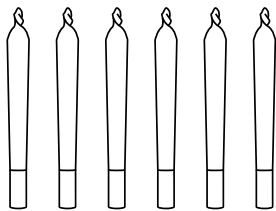

Heat-Not-Burn: Safer on the lungs, mild aroma & vapor

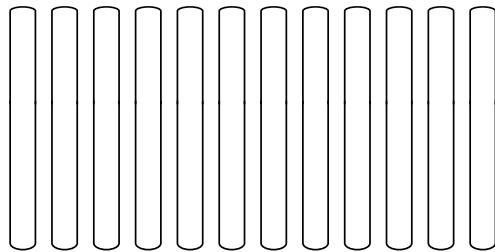

Air Bath: Advanced and secure cooling system

## VAPORIZING 2X MORE EFFECTIVE THAN SMOKING FLOWER

vs

\$45 for 0.90 grams of  
absorbed compounds

\$30 for 0.98 grams of  
absorbed compounds

## THE BEST & MOST IMPACTFUL CANNABIS EXPERIENCE

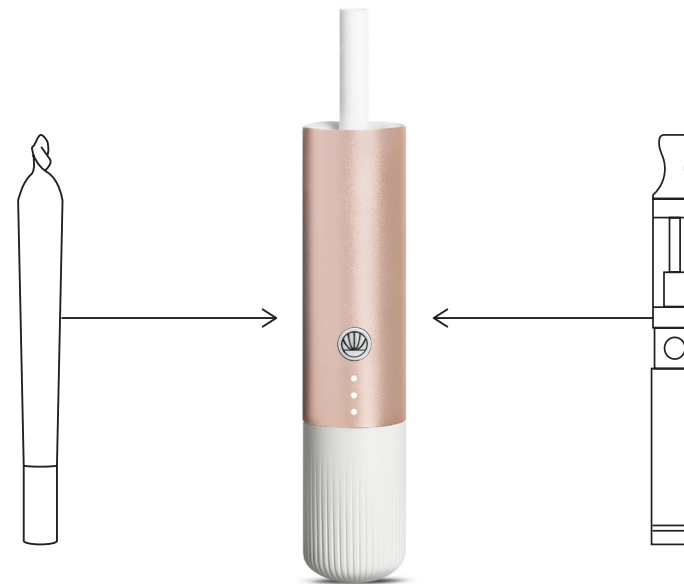

Vaporizing whole flower with the Omura system gives consumers a cleaner, more efficacious and cost-effective solution than smoking cannabis. Clinical studies have found that 70% of cannabinoids and terpenes are wasted when you smoke cannabis vs. approximately only 35% when vaporizing, meaning you'll absorb twice the amount of rich cannabis compounds using the Omura vaporizer with less flower and less cost on average.
