

Lead, Innovate, Transform

AEON Biopharma is a biopharmaceutical company focused on developing a proprietary botulinum toxin complex, ABP-450, for debilitating medical conditions, with an initial focus on the neurology and gastroenterology markets. ABP-450 has the same 900 kDa complex size as the market leader, and, if approved, will be the only therapeutic botulinum toxin with significantly similar physiochemical properties as the market leader.

Our Mission

We are dedicated to enhancing patient lives by leading in new ways to use botulinum toxins while improving existing botulinum toxin therapy.

Our Values

Our core values guide our company and every decision we make.

Innovation

We recognize the great promise and value that comes from fresh and creative thinking. We aim to transform the therapeutic use of botulinum toxins

Dedication

At AEON, we believe that great achievements are realized when passionate people work together towards a compelling vision.

Compassion

We understand how difficult it is to suffer from the pain and decreased functionality arising from a medical disorder. At AEON, patients are at the

with the introduction of ABP-450.

heart of everything we do.

Agility

We understand that to innovate we must look forward constantly, adapt effectively and implement quickly.

Leadership

We believe in building an inspiring vision, setting the direction, and blazing new trails.
