Desktop Hosting Benefits Pricing FAQs Testimonials Get started

Discover why cloud hosting could be a perfect fit for your practice

Enhanced flexibility

Get anytime, anywhere access to Lacerte or ProSeries from any device. Simplify your firm and staff collaboration with the ability to work from the same data at the same time through multi-user access. And now you have the option to bring your Intuit desktop tax software, Quickbooks, and other critical business applications together in the same cloud environment.

Best-in-class security

With hosting offered by Intuit in partnership with industry leader Right Networks, you'll know that security is a top priority. Your data is protected with enterprise firewall and antivirus protection, and encryption—as well as off-site data storage to help prevent data loss.

Reduced IT hassle

No need to install anything on your device. Our engineering team will manage your hosting—which includes unlimited tax data storage and easy updates—so you don't have to.

- FAQs

The Intuit Hosting Program allows end-users to have their licensed copies of QuickBooks desktop software installed on servers in an authorized remote hosting facility, and then access that software over the Internet on a virtual desktop via a secure connection and a web browser.

Intuit has created a special program to authorize certain hosting companies* to deliver authorized application hosting and management services to their respective customers who have purchased valid QuickBooks licenses for each product accessed and each user.

Are you using an Authorized Hosting Company?
Intuit partners with companies who are screened to help ensure your data is safe and the services you receive are of high quality. To find out if your hosting company is authorized, [check this list »](#)
