

# EXHIBIT A

The screenshot shows a web browser displaying the TOYO Machine Tool Business website. The page features a blue header with the TOYO logo and navigation menus. The main content area includes a banner for Machine Tool Business, followed by a paragraph describing the company's core technology and history. Below this is a 'Product Lineup' section with two columns of information, each featuring a small image of a machine tool and a link to the model lineup.

## Machine Tool Business

**The core technology in the machine tools from Toyo means the ultimate pursuit of machining. Our machine tools meet expectations from new areas such as semiconductors and power semiconductors.**

We manufactured our first machine tool model in 1940, and in the years since then total production has reached over 10,000 units. Our internal grinding machines are used by more than 1,000 companies in Japan and overseas. TOYO brand machine tools are backed by ISO 9001 certification, the international standard in quality assurance. They are widely employed and highly regarded in many key industrial sectors, including automobiles, electric household appliances, and bearings.

### Product Lineup

<p><b>CNC Internal Grinding Machines, Chuck Type</b></p> <p>Various models that can meet every work size are lined up. We fill diverse needs in industrial fields, such as automotive and electrical appliance, etc. with wide applicability and ease-of-use.</p> <p><a href="#">The model lineup is here &gt;</a></p>		<p><b>CNC Internal Grinding Machines, Centerless Type</b></p> <p>Employs centerless support system that supports OD of work. Various models are lined up to meet work sizes and enable to process high efficiently. These internal grinding machines have been produced by the utilization of processing technology of high-precision bearings.</p> <p><a href="#">The model lineup is here &gt;</a></p>
