

REMARKS/ARGUMENTS

(Serial No. 79/276,953)

The most recent Office action found indefiniteness in the identification of goods and services, as well as a requirement for clarification as to entity type of the applicant. Included herewith is an amendment to the identification of goods and services, following closely guidance graciously provided in the most recent Office action. Furthermore, the entity type has been corrected to be a Delaware corporation.

With regard to the timeliness of this response, applicant has included Exhibit A which is a WIPO cover letter which specifies “[d]ate on which the notification was sent to WIPO (mailing date): 12/3/2020” (a.k.a. March 12, 2020). Thus, consistent with the deadline for responding provided in the most recent Office action (page 1, lines 25 and 26), the date which is “within six months of the ‘date on which the notification was sent to WIPO (mailing date)’ located on the WIPO cover letter” is six months after this date of March 12, 2020. Note that the WIPO cover letter displays dates in day/month/year format, so that “12/3/2020” is “March 12, 2020.” Six months from this date is September 12, 2020. September 12, 2020 was a Saturday, thus this response is timely submitted on Monday, September 14, 2020.

For the foregoing reasons, the undersigned respectfully submits that the amendments to the application and the included remarks/arguments support a finding by the examining attorney that this case is now in a form which warrants approval for publication and further processing by the Office.
