

Bar Code Reader

Our bar code scanner will allow you to look up a product by simply scanning it from the shelf to see how compatible it is with your skin type.

Mobile Application Andriod/iOS

We are excited to be launching a mobile app. Created with you in mind, our mobile app will allow you to better educate yourself on the products you put in your body and apply to your skin. We are exposed to a variety of supplements and products every day, but rarely know what the ingredient science means. Let us take the guess work out of

scanner and find out how compatible it is with your skin type.
