INTRODUCTION

Navigation

Navigating the course is easy. Just remember the “hamburger” menu on the top left is used to access settings.

The magnifying glass is used to search.

The wedge icon is used to navigate or expand content.

Key information appears in the video section. The right side of the page reinforces key concepts. That section may be scrollable, so look for the wedge at the bottom of the page.

Remember, to move forward, select the wedge in the center of the right hand section.

Resources

Use the note tool in your browser to summarize what you have learned from each lab. Notes are an excellent way to track your progress and reinforce key concepts.

We encourage you to use the share menu to share any questions or comments you may have. Refer to the “After Lab Time” section of each lab for more information.

Academy. Any reproduction, duplication, copying and distribution of this course content without the expressed, written consent of Online Trading Academy is strictly prohibited.

Trading Examples Contained in This Course

We believe in using real trading activity and results in our education when possible. This course contains trading examples from three different sources as follows:

1. **Pro Picks** is an educational trading and investing tool that provides educational trading ideas in all asset classes each day. For all Pro Pick trading results, performance is based on real market conditions and prices using hypothetical trading accounts.
2. **Trade Results** using our supply and demand levels, performance is based on real market conditions and using real trading accounts
3. **Student Testimonial Trade Results:** Trading statements shown in this course are real short term and long term trade results received directly from either students or instructors for which we have acquired verifiable statements of account.

Risk

- All trading involves high risk
- Past performance is not necessarily indicative of future results
We make no promises, guarantees or warranties suggesting that any trading or training will result in a profit or will not result in a loss.

GENERAL INSTRUCTIONS

These labs are designed to be worked independently but to have access to instruction as you may need it. The guide is designed to help you verbalize a process in your own words so that you understand what you know. You will also know what areas may still need additional assistance.

To achieve a stronger understanding of a topic it is useful to know if you can express it in writing to yourself, so take time to thoroughly answer the questions as you go. This serves two purposes: your instructor will have a clearer view of where your understanding is and how to guide you and, at the end of this course, you will have a book you can refer to that will recall your own personal development and insight of the subject.

The labs follow the order of the class manual. The Purpose of the lab and the General Task you complete are listed first. Refer to these if you wonder what to be writing about in your answers. After any specific instructions you will find areas to fill in data and then to reflect on your work. The more thoroughly you fill this in the better it is as a way to cement your understanding. It also becomes a valuable future reference.

The page layout is designed such that you can put your data on the left side and then be able to refer to it as you complete your answers. Notice the area on the right side facing page where you can write any difficulties you had or topics you still have questions about. Your instructor may not always be readily available so be sure to keep track of your thoughts as you go. To maximize your experience re-read the data and notes in the evening and jot any new questions you may have. Re-read these again the future and realize how much you have grown and developed over time.

Lastly, HAVE FUN! You will be amazed at how your appreciation and insight into the topic grows as you go through this. And when you review this guide, feel proud of yourself for how you are reaching your goal of increased income and wealth.
