## How it works

1. CREATE your dress using the 3D mannequin.
2. CHOOSE from an array of fabrics.
3. SIZE and FIT software maps your body and generates measurements so we can customize your dress for a perfect fit.
4. SAVE your design ideas for another day.
5. HAVE IT MADE when you need a dress.
6. SAVE your new dress in your CLOSET.

## CREATE

Plumb Fashion uses your body measurements to create a virtual 3D Mannequin for you to design a dress that fits and is in a style you like.

## Choose from an array of fabrics

Choose from an array of colors dyed in a fabric that is breathable, soft, eco-friendly, and comfortable. The modal is made from Lenzing yarns from Austria and the fabric is manufactured in Los Angeles. Additionally the fabric is lightweight, stronger and softer than regular cotton.

## Have it made

Save your design ideas and when you need a dress, have your favorite one made!
