SUCCESS STORIES

See why our customers choose GoTo

Risk Management Advisors Provides Trusted Client Service with GoToConnect

"We love [GoToConnect], and since we make our money on the phone, I have peace of mind knowing it always works."

Wesley Sierk
President,
Risk Management Advisors, Inc.

GoTo for professional services

GoToMeeting Virtual Meetings

GoToMeeting provides professional, secure video conferencing for businesses all around the globe.

GoToConnect Audio and Telephony

Clients can easily reach you with audio options including VoIP, cloud phone systems, and toll-free conference calling.

GoToRoom Room Solutions

Leave a lasting impression from any size room with high-quality video and audio conferencing, set up in minutes.

Video conference with confidence

Connecting with clients is simple and secure with GoTo. Trust your conversations are kept confidential, and save time with our intelligent meeting tools.

- ✓ TLS encryption and 256-bit AES encryption at rest protects sensitive chat, session, recording, notes, and more.
- ✓ Secure features for meeting hosts include password protection and meeting locks.
- ✓ Keep detailed records automatically with meeting recording, transcriptions, and call recording.

Leave a lasting impression

GoTo provides user-friendly experiences across desktop, web browser and mobile devices.

- ✓ Browser-based online meetings mean your clients don't need to download anything.
- ✓ See detailed incoming caller information to create a personalized client interaction.
- ✓ Global toll-free phone numbers available with Enhanced Audio.
- ✓ Full-featured mobile apps allow you to stay productive even when traveling or working remotely.

Your reliable partner

With decades of industry savvy, you can trust The GoTo's Suite to deliver a reliable, user-friendly collaboration experience.

- ✓ A dependable In-house customer service team, who earned Frost & Sullivan's North American Service & Support Award.
- ✓ Top-rated mobile apps that are built for business on-the-go.
- ✓ GoToMeeting was redesigned based on feedback from over 10,000 users.
