Why Turf Maintenance
 (<http://www.matrix-turf.com/maintenance/#why-turf-maintenance>)

Clean Sweep Cleaning Service
 (<http://www.matrix-turf.com/maintenance/#clean-sweep>)

PROFESSIONAL TURF AND ARTIFICIAL GRASS

You take care of your vehicle by washing it and keeping the oil stay looking new, performing well, and will last longer. The same is applied to the turf maintenance of a new synthetic field. By using (<http://www.matrix-turf.com/products/turf/matrix-turf/>)'s maintenance a year, you will ensure your field looks great, plays great, and last. To schedule one of Hellas' turf maintenance services, please [contact us](http://www.matrix-turf.com/contact-us/).

 (<http://www.youtube.com/HellasConstruction>)

Constant sports field maintenance and care is crucial to maximize the life of your turf surface. Hellas understands this and is proud to have the best maintenance service for every Matrix Turf surface it installs. Hellas provides clients with information necessary to maintain the look, feel, and playability of their turf surface. Hellas has developed an array of both machinery and services to meet the maintenance need for fields, including de-compactors, repair to sprays. With Hellas' service and maintenance, taking care of a field is a simple and almost automatic experience that brings life to the field for the athletes.

CLEAN SWEEP CLEANING SERVICE

Clean Sweep® Cleaning Service is a turf maintenance, cleaning service that quickly cleans and revitalizes your field by performing impaction cleaning. Over time, infill and debris collect on the surface, making the playing surface harder, uneven, and less enjoyable. A Clean Sweep machine will lift and loosen the infill to soften the surface and bring it back up to their original position. It then runs across the top layer of the field, collecting loose infill and debris. The debris is collected and thrown away, and the infill is redistributed into the surface. A powerful 6-foot tow-behind machine is used to clean the material, such as broken equipment, bobby pins, and other metal debris from the infill.

Turf Maintenance, Repair & Synthetic Grass Cleaning

Clean Sweep Cleaning Service magnet removing unwanted debris from synthetic turf.

The Clean Sweep Cleaning Service Field Sweeper is another cost-effective way to stay on top of turf maintenance without scheduling appointments. The machine will remove excess fibers, trash, broken athletic equipment, and debris from synthetic turf while evenly redistributing infill. Using this machine helps synthetic turf look better, last longer, and have better playability.
