

### We love film festivals!

At film festivals you have the opportunity to discover great movies you may never have the chance to see otherwise. But the challenge with attending a physical festival is you have to take time off work, book flights, book hotels, buy expensive festival passes, wait in lines, choose what films to see, and juggle parties, networking, exploring, and sleeping. In fact, the average festival goer only sees one to three films per festival, and it can cost \$2,500 to \$25,000!
