About ACSI

Architectural Control Systems, Inc. (ACSI) designs, manufactures, and modifies a complete line of quality electrified door hardware products including electric hinges/pivots, electric mortise locks, electric cylindrical locks, electric exit devices, power supplies, door access controls and magnetic locks.

A message from our CEO, Mark LeGrand:

We are proud of our rich history as a pioneer in the development of complex electrified door hardware solutions, and products for contract hardware distributors, wholesale lock distributors and major manufacturers in our industry.

In our 40+ years we've grown and innovated to stay at the forefront of our industry while building a passionate, talented team to ensure our customers receive the highest quality products and service they have come to count on from ACSI. When we look back at the last 12-16 months, we do so with confidence. Concerns related to the COVID-19 pandemic put a new spotlight on employee safety. Since safety is already a core value at ACSI, we were committed to measures that preserved the health and wellbeing of our employees, while never stopping to deliver on our commitments to distributors.

Our team and our partners are what make ACSI a success. Thanks to our strong relationships within the industry and the dedication of the ACSI family, we successfully navigated a challenging 2020 to present, and look forward to a bright and exciting future with all of you.

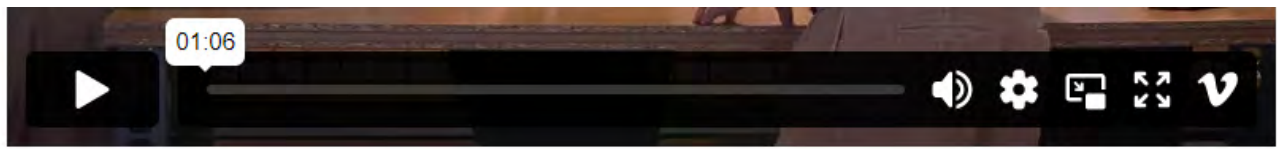

In the coming months, we're looking forward to sharing new and updated products, great buying opportunities, company updates and more.

Thank you for your continued support, friendship and loyalty.

Mark LeGrand

CEO, Architectural Control Systems, Inc.

“For over 40 years, ACSI has been a pioneer in complex, electrified door hardware solutions for contract hardware distributors, wholesale lock distributors, and major manufacturers in our industry.”

Mark LeGrand, CEO of ACSI

Home › ABOUT US

ABOUT US

At Gemini, our goal is to design products that offer value and innovation in the DJ, Pro Audio, and Consumer Electronic markets. Since 1974, we've evolved and thrived by understanding the needs of our customers and recognizing industry trends. From our humble beginnings, we understood the potential of the DJ movement. And our ability to support this movement not only helped us grow as a company, it helped DJs gain recognition and esteem, calling deserved attention to their roles as artists and performers.

With success and growth comes evolution and expansion. The DJ revolution will always be near and dear to Gemini - and we know there's still so much room for innovation - but our portfolio continues to develop in scope and diversity. Today, Gemini provides groundbreaking products for DJs, musicians, engineers, sound contractors and professional installers around the globe. We've built an international presence with affordable, reliable gear and long-standing relationships that span decades and continents.

Thanks to a rejuvenated focus on product development and global marketing, Gemini is poised for boundless achievements. Our products are backed by the commitment of passionate engineers and knowledgeable professionals whose dedication to our customers is unmatched. Now, as vision and progress drive us, our devotion to service and innovation still remains paramount. For over forty years, we've designed gear with our customers in mind. It's a legacy we're proud of... and one that guides us as we look towards the future.

Response to Office Action

The table below presents the data as entered.

Input Field	Entered
SERIAL NUMBER	90674537
LAW OFFICE ASSIGNED	LAW OFFICE 108
MARK SECTION	
MARK	mark
LITERAL ELEMENT	OWC GEMINI
STANDARD CHARACTERS	YES
USPTO-GENERATED IMAGE	YES
MARK STATEMENT	The mark consists of standard characters, without claim to any particular font style, size or color.
ARGUMENT(S)	
<p>The Examining Attorney has indicated that should it register, a prior application for GEMINI covering "Silicon chips; integrated circuits; semiconductors" will be cited against this application. However, applicant believes that both the mark and the goods can be distinguished. First, Applicant's mark begins with OWC, a mark which is has previously registered, and which has been in use for over 15 years for goods in Class 9. OWC appears first in the mark at issue, and is the dominant portion of the mark because of its long term use in connection with consumer computer goods, specializing in computer back-up and storage hardware and software. The second word of the mark, "GEMINI" commonly is associated with "twins" in the astrological sign. Therefore, with regard to the goods of the applicant, there exists a double meaning, because of the copying or "twinning" function of computer back-up and storage. With regard to the goods of the pending application, such goods are used in the manufacture of computers, and are not consumer electronic products. Silicon chips and semiconductors do not travel in the same trade channels as the goods of the Applicant. Therefore, confusion is unlikely. The differences in the marks in sound, appearance and meaning, coupled with the differences between the goods and the respective channels of trade strongly supports a lack of any potential for confusion. Therefore, approval of the application is respectfully requested.</p>

Response to Office Action

To the Commissioner for Trademarks:

Application serial no. **90674537** OWC GEMINI(Standard Characters, see <https://tmng-al.uspto.gov/resting2/api/img/90674537/large>) has been amended as follows:

ARGUMENT(S)

In response to the substantive refusal(s), please note the following:

The Examining Attorney has indicated that should it register, a prior application for GEMINI covering "Silicon chips; integrated circuits; semiconductors" will be cited against this application. However, applicant believes that both the mark and the goods can be distinguished. First, Applicant's mark begins with OWC, a mark which is has previously registered, and which has been in use for over 15 years for goods in Class 9. OWC appears first in the mark at issue, and is the dominant portion of the mark because of its long term use in connection with consumer computer goods, specializing in computer back-up and storage hardware and software. The second word of the mark, "GEMINI" commonly is associated with "twins" in the astrological sign. Therefore, with regard to the goods of the applicant, there exists a double meaning, because of the copying or "twinning" function of computer back-up and storage. With regard to the goods of the pending application, such goods are used in the manufacture of computers, and are not consumer electronic products. Silicon chips and semiconductors do not travel in the same trade channels as the goods of the Applicant. Therefore, confusion is unlikely. The differences in the marks in sound, appearance and meaning,

coupled with the differences between the goods and the respective channels of trade strongly supports a lack of any potential for confusion. Therefore, approval of the application is respectfully requested.

CLASSIFICATION AND LISTING OF GOODS/SERVICES

Applicant proposes to amend the following:

Current:

Class 009 for Computer backup and storage systems with multiple removable RAID cartridges; Computer cables; Computer hard drive enclosures; Computer hardware; Computer hardware and computer peripheral devices; Computer hardware and peripherals; Computer hardware for upload, storage, retrieval, download, transmission and delivery of digital content; Computer network hubs; Computer networking hardware; Computer peripheral devices; Computer peripheral equipment; Computer software for the management and automation of data port expansion and connectivity; Computer storage devices, namely, blank flash drives; Computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; Data access port for use with electrical control panels for connecting multiple data and electrical devices; External computer hard drives; External computer hard drives featuring software for the storage, backup, and retrieval of electronic data; Hard disk drives (HDD); Mounting racks for computer hardware; Power adapters for computers; Removable hard drive based computer backup systems; Solid state drives; Computer peripherals sold with or without computer data storage device; Backup drives for computers

Filing Basis: Section 1(b), Intent to Use: For a trademark or service mark application: The applicant believes the applicant is entitled to use the mark in commerce on or in connection with the goods or services specified in the application; the applicant has a bona fide intention to use the mark in commerce and had a bona fide intention to use the mark in commerce as of the application filing date. **For a collective trademark, collective service mark, collective membership mark, or certification mark application:** The applicant has a bona fide intention, and is entitled, to exercise legitimate control over the use of the mark in commerce and had a bona fide intention, and was entitled, to exercise legitimate control over the use of the mark in commerce as of the application filing date. **For a certification mark application:** The applicant will not engage in the production or marketing of the goods/services to which the mark is applied, except to advertise or promote recognition of the certification program or of the goods/services that meet the certification standards of the applicant.

Proposed:

Tracked Text Description: Computer backup and storage systems with multiple removable RAID cartridges; ~~Computer cables;~~ Computer hardware; ~~Computer hard drive enclosures;~~ Computer hardware and computer peripheral devices; Computer hardware and peripherals; Computer hardware for upload, storage, retrieval, download, transmission and delivery of digital content; Computer network hubs; Computer networking hardware; Computer peripheral equipment; [Recorded integrated computer software for the management and automation of data port expansion and connectivity;](#) ~~Computer peripheral devices;~~ Computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; Data access port for use with electrical control panels for connecting multiple data and electrical devices; ~~Computer software for the management and automation of data port expansion and connectivity;~~ External computer hard drives; ~~Computer storage devices, namely, blank flash drives;~~ [External computer hard drives featuring recorded integrated software for the storage, backup, and retrieval of electronic data;](#) Hard disk drives (HDD); Removable hard drive based computer backup systems; Solid state drives; ~~External computer hard drives featuring software for the storage, backup, and retrieval of electronic data;~~ [Backup drives for computers;](#) ~~Mounting racks for computer hardware; Power adapters for computers; Computer peripherals sold with or without computer data storage device; Backup drives for computers~~

Class 009 for Computer backup and storage systems with multiple removable RAID cartridges; Computer hardware; Computer hardware and computer peripheral devices; Computer hardware and peripherals; Computer hardware for upload, storage, retrieval, download, transmission and delivery of digital content; Computer network hubs; Computer networking hardware; Computer peripheral equipment; Recorded integrated computer software for the management and automation of data port expansion and connectivity; Computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; Data access port for use with electrical control panels for connecting multiple data and electrical devices; External computer hard drives; External computer hard drives featuring recorded integrated software for the storage, backup, and retrieval of electronic data; Hard disk drives (HDD); Removable hard drive based computer backup systems; Solid state drives; Backup drives for computers.

Filing Basis: Section 1(b), Intent to Use: For a trademark or service mark application: The applicant believes the applicant is entitled to use the mark in commerce on or in connection with the goods or services specified in the application; the applicant has a bona fide intention to use the mark in commerce and had a bona fide intention to use the mark in commerce as of the application filing date. **For a collective trademark, collective service mark, collective membership mark, or certification mark application:** The applicant has a bona fide intention, and is entitled, to exercise legitimate control over the use of the mark in commerce and had a bona fide intention, and was entitled, to exercise legitimate control over the use of the mark in commerce as of the application filing date. **For a certification mark application:** The applicant will not engage in the production or marketing of the goods/services to which the mark is applied, except to advertise or promote recognition of the certification program or of the goods/services that meet the certification standards of the applicant.

my|GEMINI Digital Bank OS

LEARN MORE FROM BANKING SOFTWARE COMPANY S.R.O.

Overview

Features & Benefits

Certifications

Our Digital Bank OS is a holistic digital platform that consists of dozens of software components accompanied with many ready-made data configurations, processes and workflows. The architecture of independent services provides flexibility, robustness and enable parallel development,

however, sometimes it is not straightforward to understand which component is required to achieve specific business goals.

Overall, Digital Bank OS platform functionality is divided into multiple software components that provides discreet encapsulated functionality available through their APIs. Components functionality is set up using data configurations allowing changing system behavior for components and also visually for user facing applications.

Based on specific bank requirements in terms of demanded business functionality and IT requirements we deliver standardized bundles of components together with corresponding configurations that we call Products. We currently offer following pre-bundled Digital Bank OS based products:

Retail Banking

Omnichannel banking platform product focused on serving retail bank customers covering typical user stories

Corporate Banking

Omnichannel banking platform product focused on corporate customers, their business processes, transactions and products

Mobile Banking

Native mobile applications connected to our server side omnichannel banking platform

Entitlements

Product providing complex functionality of right and entitlements management as a centralized service for any bank organization

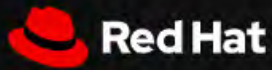

Therapi

API Gateway providing full support and compliance with PSD2 regulation

BeeHUB

Open banking aggregator allowing bank to design and deliver full customer journeys integrating internal products and services together with external

ones with value orchestration approach.
