

Welcome to the world of Ascot Underwriting. We have come a very long way in just a few years. From Day One, we've had in place the finest resources and controls: high quality capital backing, systems that are second to none, and recognised underwriting talent.

The special alchemy of our company infuses everything we do: it's a drive, an entrepreneurship, a vibrancy, a willingness to create new markets and look at risk from new perspectives. We do not see the business of risk as a commodity market.

With a global reach that extends across the UK, North America, Asia and Europe, our specialist expertise is always at hand. And wherever we are, we're always thinking outside The Box.

As one of the fastest growing syndicates in Lloyd's history, we have matured from the new kid on the block to leading over 40% of the business we write.

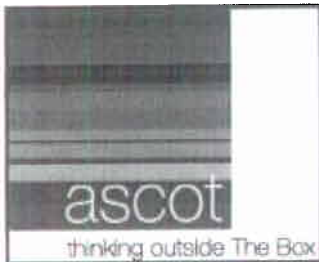

Innovation and expertise have been at the heart of our business since our launch six years ago.

We were one of the first to market with standalone Terrorism coverage in late 2001, and in 2007 we launched Ascot Renewco, our renewable energy operation. Both initiatives are evidence of our determination to lead new markets.

We specialise in the following core lines of business: Property, Energy, Cargo, Terrorism and Political Risk, Marine Hull / Liability, Excess of Loss, and Specie and Fine Art.

Concentrating our expertise means that we can respond more quickly to changing needs in the market. And with our global network of offices, we understand the unique pressures and challenges in your environment.

Whatever your own particular challenges, Ascot Underwriting will work with you to find the perfect solution.

Areas of Business

- Cargo
- Energy
- Marine Hull
- Property
- Political Risks and Terrorism
- Treaty Reinsurance
- Specie and Fine Art
- Accident & Health

Ascot - Syndicate 1414 - writes a composite book of business across a number of classes: Property, Energy, Specie & Fine Art, Cargo, Terrorism & Political Risks, Marine Hull/Liabilities and Treaty Reinsurance. We have leadership expertise across all of these classes and welcome the opportunity to apply these skills to shape and tailor specific insurance solutions.

We aren't content to sit in London waiting for your business. Our underwriters travel extensively to meet with customers and better understand their particular challenges. And you can now access our underwriting expertise 24 hours a day through our global offices in Singapore, Houston, and Bilbao.
