Mold Testing and Remediation Services

Questions? Call us today (844) MY BULLDOG (tel:844692855364)

SUBMIT

24 / 7 Emergency Response

Our restoration technicians respond 24 hours, 7 days a week. In a time where expediency is paramount, our technicians arrive on-site with all the tools needed to prevent secondary damage and return your property to pre-loss condition.

Indoor Air Quality Testing

Indoor air quality is commonly overlooked in this industry. Bulldog Cleaning & Restoration can perform the testing procedures for mold, odor identification, allergies and more. All samples are sent to a 3rd party lab for analysis and results can be received as early as the next business day.

Xactimate Proposals & Pricing

Insurance companies request estimates and invoices be submitted in a particular format. Our company utilizes the latest software tools to provide your insurance company with accurate measurements and industry accepted pricing structures.

Full Mitigation & Restoration Services

Mitigation is the act of preventing secondary damages to your property or contents after a loss has taken place. This can involve structural drying, removing flooring or walls and even manipulating contents. Bulldog Cleaning & Restoration will not only mitigate your loss but can restore it to pre-loss conditions as well.
