ABOUT THIS CONTENT

Setting, Extension and Library Module for Fantasy Grounds

This is the full book, complete with all Player and Game Master information for Novice to Veteran play!

Just paging through the Players Guide makes you want to play, and it's genuinely hard to create a boring character using this book; everything works together to make your Hero interesting. And that's even before you get to the four detailed Major Enemies lurking in Shaintar. Or the rules for alchemy, or the tantalizing glimpses we get of the Black Lantern and Grayson's Grey Rangers . . .

"A winner. Get this book." -- Ed Greenwood, creator of The Forgotten Realms (r)

Savage Worlds fans will find a lot to love about Shaintar: Legends Arise:

- Eleven distinctive Races with many specialized Racial Edges for each.
- Over 60 new Edges, including Professional, Combat, and Power Edges.
- Expanded options for magic, including Applications for Sorcery, Extended Casting, and more.
- New and expanded rules for Alchemists and Artificers, as well as personalized magic items.
- Setting rules like All Out Move, the Deep Magic, and Lead from the Front.
- Information about the many nations and factions that drive the stories of Shaintar.

- A complete Timeline featuring thousands of years of Shaintar's history.
- A Denizens section with many dozens of characters and monsters, as well as five new Monstrous Templates and templates for changing almost any Denizen to any of the eleven Races.
- An expanded Weapons, Armor, and Gear list for epic fantasy gaming, as well as a Resource system to replace "counting coins" for wealth management.
- Extensive advice about Game Mastering an Epic High Fantasy setting.
- Three Legendary Tales, "Countering the Terror," "Red Store Rising," and "Return to Honor, Return to Glory."
- Anyone seeking Epic High Fantasy adventure will enjoy this book, as will anyone wishing to add lots of great new material to their Savage games!

Dragon's Dogma: Dark Arisen

★ 4.3/5 | 🎮 | English & 5 more

Description

Set in a huge open world, **Dragon's Dogma: Dark Arisen** presents a rewarding action combat experience. Players embark on an epic adventure in a rich, living world with three AI companions, known as Pawns. These partners fight independently, demonstrating prowess and ability that they have developed based on traits learned from each player. Players can share these Pawns online and reap rewards of treasure, tips and strategy hints for taking down the terrifying enemies. Pawns can also be borrowed when specific skills are needed to complete various challenging quests.

- **Dynamic combat experience** – Cut off the four heads of a Hydra, climb atop griffins and fight airborne, or defeat dragons and other creatures by finding out their weaknesses.
- **Tons of content** – Includes all previously released DLCs, pre-order bonuses, retailer-exclusives, and the Dark Arisen expansion content. Features the highly praised combat experience and rich customization, plus a huge underground realm to explore with terrifying monsters.
- **Customization options galore** – Nine different vocations for players to choose from with a variety of skill options for each, armor that can be upgraded and enhanced, plus Pawn companions that can be trained to fit your desired combat style.
- **Stunning visuals** – Beautiful high res graphics with increased fidelity.
- **Full GOG Galaxy platform support** – Includes Achievements, Cloud Save, Pawn Hiring between players, Trading, and Leaderboards.
- **Expanded controller support** – In addition to supporting the traditional keyboard and mouse control scheme, the game natively supports Xbox 360, Xbox One, and other DirectInput-based game pads such as the DualShock controller.
- **New Achievements** - 9 brand new Achievements for both new and returning Dragon's Dogma fans! Get ready to delve deep into Bitterblack Isle...

★★★★★ **Amazing Open World Action RPG**
June 5, 2017

60FPS constant throughout the game, very smooth. The ONLY action RPG that lets you climb on top of big enemies like Griffons or Dragons to slash them in various parts. Melee classes can combo and chain their attacks, even in the air. Magic and spells in this game are some of the most epic I've seen, whirlwinds blow enemy off their feet into the air where they come smashing back to the ground, ice pillars stab through mobs of enemies, meteor showers rain death and destruction. You will never tire of casting spells and watching the mayhem in the game.

Game runs on a party pawn system. While you can create, build and equip your main pawn to your liking, you'll have to choose and hire the other 2 pawns from the game's system. Party composition can be crucial to certain fights or just plain [Read more](#)

★★★★★ **Best open world RPG since Elder Scrolls**
June 5, 2017 • Verified owner

This is the very best open world RPG game if we were to take The Elder Scrolls out of the equation. This is not the meta "perfect" game, but it has things in the game other RPGs could only dream of having. The character creator is one of the best you'll see in a video game, you can create anything from the fat to thin, elderly to child, choosing multiple voices, builds and heights. Your chosen character can then be seen in the real time cutscenes.

The gameplay is simply addicting and amazing where the combat is fast, fluid and responsive, whilst also having a variety of enemies you are forced to change your approach to match their weaknesses. An example would be flying harpies where melee isn't as great as a ranged attack or using that one ability that lets you jump high in the sky for [Read more](#)

You can completely design how you look, black, white, male female). You have 3 basic classes Sword/Bow and magic which further advances into 6 later. There are lots of items, weapons and clothes to pick.

The game doesn't really explain why, but there are a bunch of people who never really die who are called "Pawns". They look and act Human, but don't really have much self will. And because you are the Arisen, you get a free personal pawn Helper. This Helper serves you no matter what, you can make it whatever class you want, even how it will speak (it uses a great varied audio speech system) and even their [Read more](#)

★☆☆☆☆ Rental system bugged on GOG version

June 28, 2017 • Verified owner

Pros: Overall it is a very fun game and RPG. Combat is very immersive and playing any class you want at any time keeps the game fresh.

Cons: A HUGE PROBLEM is that the pawn rental system does not work with this game as it is current bugged with gog or capcom having no interest in fixing it. If you are truly interested in purchasing DD, I'd suggest going through steam as they have fixed the bugs and rental system fully.

★★★★★ A more lighthearted Dark Souls

June 5, 2017 • Verified owner

If you let it, this game will keep you up all night.

The enemies will not level with you, this makes some areas of the game virtually inaccessible from the onset of the game. That being said, you shouldn't need any grinding if you walk to everywhere you need to go, rather than use ferrystones to fast travel, and explore the world. There's a large area on the bottom left part of the map that the main story won't lead you to and as I recall only one side quest has you travel through. If you like games where exploration is encouraged but not forced then you'll love this world.

Here's wishing you luck for now, and countless lifetimes come to pass.

This is interesting. Certainly one of the bigger installments using AR that I've played. The controls are a little difficult, and the need for plenty of space so you can move around the virtual level can be a bit tedious, but this is still a jump up in what AR games can accomplish. Try it, you might like it.

As a long time fan of Ghost in the Shell, I was thoroughly overjoyed when they announced Arise. Like many others, I was a bit unsure of Motoko's new look, but after sitting through the Arise Border movies and being capped off with The New Movie, I have to say I've really come to enjoy her new look --- in some regards, even more so than her Stand Alone Complex / 2nd Gig look!

The story of each Border is fantastic, insightful, complicated without being overly confusing, and entertaining. The quality of the animation is top notch, and these contain quite a bit more action than the original animated series do. I've now watched them a number of times and enjoy them as much as I do 2nd Gig, which is my overall favorite entry in the GITS Franchise.

Liked ARISE so much I actually own many ARISE PVC Figures of Motoko Kusanagi!

★★★★☆ **Great For the fans and GITS newcomers, sub par ending, nothing uncharacteristic of previous stories.**

October 15, 2015

Format: Blu-ray | [Verified Purchase](#)

I've watched episode 1&2 in Japanese with subtitles previously at a local convention, and just now watched the whole four part/border series in English today. I guess you can watch just these two episodes, but I would advise against watching this without also buying and viewing borders 1&2. I was pleased to see that despite having been labeled as Blu-Ray, all four episodes (1&2 bought earlier this year and left unopened until today) came with what appears to be a DVD version of each episode, a notable bonus.

Looking at all four episodes in this review, the series appears to be an entirely new continuity from every other Ghost In The Shell production, which may bug some viewers. If you love everything Ghost In The Shell however, and don't mind keeping track of this as it's own self contained dimension from the movies and etc, then it has some great storytelling and moments. In some ways it's better, though mostly the same as previous iterations of the story. The only episode I found lacking is the fourth, particularly where it tries to tie in some events of previous episodes, which otherwise could have just remained fascinating unrelated on-off events. I feel they should have axed tying those episodes together into this one, and focused on the unique storytelling of the fourth, which I did find interesting. The tie ins are characteristic of all GITS stuff however, so can I really blame it for following through as usual? Perhaps if I actually understood and fully comprehended how everything pieced together, then I wouldn't

love all things ghost in the shell. this series is a prequel, showing the formation of section 9. very good story and animation. it's a bit confusing about the way these films were edited into a tv version and will lead to a movie. i would like to get the standalone video of the episodes linking this to the movie. consistently annoyed by the fact that mary elizabeth mcglynn, who i loved as the standalone complex english voice of the major, is now playing another important character. conversations between her character and the new voice of kusanagi are confusing, because the "major's" voice is coming out of another character's mouth, speaking to the face of the major. not a big deal, but since mary elizabeth was obviously available, why not just have her play the major? it makes no sense.

★★★★★ **A Faithful Masterpiece in the Spirit of the Original Film.**

September 24, 2017

Format: DVD | [Verified Purchase](#)

A masterpiece of narrative, and a Spiritual prequel to Mamoru Oshii's original "Ghost In The Shell" back in 1995. Keep in mind that this is only an interpretation of the series, and subtly conflicts with a great deal of other materials produced under the ghost in the shell name. Thankfully this conflict is very mild, and the "Arise" story itself is a true work of art, crafted faithfully in the spirit of the original.

Fanatic, Die Hard fans will notice the differences, I however find it a worthy tribute to what is undoubtedly the finest example of trans-humanist fiction of all time.

For those of you Looking into this series, note that this collection only consists of Borders, 3 & 4 (pretty much parts 3 and 4 of a 4 part series) for the rest, take a look at [Ghost in the Shell Arise: Borders 1 & 2](#)

Also, don't miss the Full film conclusion to the series [Ghost in the Shell: The New Movie](#)

Enjoy :-)

★★★★★ **Turned Out To Be Pretty Good....**

November 10, 2015

Format: Blu-ray | [Verified Purchase](#)

Well, I was wondering if this would be another situation where the characters were changed to the point to be not the same as the original series were. It turned out to be a very good set. First, one gets a really good look at how the Major was before she got to be as in the Stand Alone Sets. It was very nicely done and I really like how they showed the character trails which she shows later on are shown to develop. (I really like the one place near the end where Buto has to once again "save" the Major from herself as she tries to follow someone's memory that is coming apart. I very typical Major response to wanting to know.) Overall, a very nicely done second set. I hope for more like this!

I take my sweet time in viewing so I guess I'm screwed here, but BEWARE this disc set. Disc one will play just fine. But disc 2 is defective. Completely unplayable and, even AnyDVD could not repair the stupid thing. So -- buyer regret here. Not happy.

Very good movie in the Ghost in the Shell series about life in the police in the near future in a cyberpunk world with advanced AI and robot shells that can take a human consciousness; the ghost, and run it like an operating system.
