 Hi Cas,
 Thank you so much for these. You are helping me so much x
 I agree, 15 minutes a day/at a time really does work. Like you, I have a problem with concentration & get bored easily but if I do something for just 15 mins it actually works! 😊
 For ages the top of my cooker has been really dirty from some candle wax that had melted onto it & kept putting it on. Yesterday tho I spent 15 minutes cleaning it & its now looking great.
 Now to tackle the rest of the cooker - 15 mins a day 😊
 Good luck with the shake diet, please keep us up-to-date on how it goes.
