Zing is a new app you that connects you with everyone watching the same TV show. Any show, any time. It also allows broadcasters to communicate directly with the audience real time during the program, and allows celebrities to stop by and watch any show with the whole audience.

Once you download Zing and sign up, complete the on boarding process and preferences and review the quick side bar tutorials. Then set up your Celeb group and any Friends groups you want, and you're ready to go. Just sit down in front of any TV and pick the show you are watching on the Zing channel guide. You're immediately brought into the entire community of people across the US watching that show!

Once you've picked a show, you can Comment about the show any time. No texting needed – it's fast and easy. Just touch the comment you want and toss the Comment bubble out of the top of the phone. You've spoken! And on Zing, you're voice always counts, and is included in the real time results that everyone sees.
