### The Odyssey for the future

**Reg. No. 5,917,267**

**Registered Nov. 26, 2019**

**Int. Cl.: 9, 16, 35, 41, 42**

**Service Mark**

**Trademark**

**Principal Register**

ENERGY OBSERVER (FRANCE SOCIÉTÉ PAR ACTIONS SIMPLIFIÉE (SAS))  
40 Rue De La Natière  
F-35400 Saint Malo  
FRANCE

CLASS 9: Apparatus and instruments for conveying, distributing, transforming, storing, regulating and controlling electricity from renewable energies; blank digital audio tapes; prerecorded CD-ROMs featuring music; prerecorded DVDs featuring documentary films; blank compact disks, DVDs and other digital storage media; computer storage devices, namely, blank USB flash drives; downloadable video recordings featuring documentary films; downloadable computer games; recorded video game programs; downloadable interactive video game programs; downloadable electronic newspapers; downloadable electronic books in the field of energy, renewable energies and efforts to combat climate change

CLASS 16: Printing products, namely, paper; photographs; posters; photograph albums; stickers; pamphlets in the fields of energy, renewable energies and efforts to combat climate change; travel books; postcards; printed travel guides; daily newspapers; books in the fields of energy, renewable energies and efforts to combat climate change

CLASS 35: Advertising in the fields of energy, renewable energies and efforts to combat climate change; advertising, sponsorship search in the fields of energy, renewable energies and efforts to combat climate change; compilation of statistics in the field of energy; business management assistance in the fields of energy, renewable energies and efforts to combat climate change

CLASS 41: Training and education services, namely, classes, seminars, and workshops in the fields of energy, renewable energies, and efforts to combat climate change; production of films; provision of information relating to training and education in the fields of energies, renewable energies, and efforts to combat global warming; organization and conducting of educational colloquiums, conferences, congresses, training workshops, exhibitions, forums, seminars, and video conferences in the fields of energy, renewable energies, and efforts to combat climate change; publication of online texts of interviews featuring scientists in the fields of energies, renewable energies and efforts to combat global warming

CLASS 42: Engineering, laboratory research in the fields of energy, renewable energies and efforts to combat climate change; scientific and technological computer project management in the fields of energy, renewable energies and efforts to combat climate change; scientific research in the fields of energy, renewable energies and efforts to combat climate change; development of new products in the fields of energy, renewable energies and efforts to combat climate change; scientific analysis in the fields of energy, renewable energies and efforts to combat climate change; technical project studies, namely, conducting scientific feasibility studies in the fields of energy, renewable energies and efforts to combat climate change; advice relating to energy savings, namely, consulting services in the fields of energy measurement to improve energy efficiency; expert reports, namely, conducting feasibility studies in the field of environmental engineering; material testing in the fields of energy, renewable energies and efforts to combat climate change; scientific and industrial research, advice and information relating to environmental protection, sustainable development, renewable energies and efforts to combat climate change; prevention of pollution risks relating to activities developed in the fields of energy provided by engineers in the nature of

*Andrei Iancu*

Director of the United States  
Patent and Trademark Office

testing and research on prevention of pollution; environmental auditing services, namely, energy auditing; computer system design; chemistry services in the fields of energy, namely, chemical analysis; computer website design in the fields of renewable energies and efforts to combat climate change

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY DATE OF 04-20-2018 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1443292 DATED 10-17-2018, EXPIRES 10-17-2028

SER. NO. 79-249,160, FILED 10-17-2018

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

**What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

**NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.**
