CCL60-GMA	Fits Select GM Models, Older Vehicle Keys
CCL60-GMB	Fits Select GM Models, Newer Vehicle Keys

Spare Tire Lock

A spare tire lock is needed to keep your spare secure so the tire is there when you need it most. But who remembers where the key is because it's used so rarely? The answer, the BOLT™ Spare Tire Lock. What more convenient way to unlock a spare tire than to use your own vehicle key to do it? With the same durability and strength built into this lock as all the other BOLT™ locks, there isn't a simpler more convenient solution.

- Zinc plated steel bracket
- Locks over wheel studs up to 1/2" diameter
